Rickenbacker Crew Member Found Adrift

REPORT YANKS IN TUNISIA

Hold Hope Capt. Rickenbacker May Be Alive

Renew Search In Pacific After One Of Men In Plane Is Rescued

OTHER SURVIVORS MAY BE FOUND

Companion Of Capt. Rickenbacker Picked Up On November 12

By JACK VINCENT
(I. N. S. Staff Correspondent)

WASHINGTON, Nov. 13.—The war department announced today that Capt. Eddie Rickenbacker, famed aviator, who was reported missing in a flight over the Pacific Oct. 23, may still be alive on a life raft somewhere at sea and that one survivor from Rickenbacker's ill-fated plane was found by the navy.

Hope that Rickenbacker was still alive soared when the army revealed that Capt. William T. Cherry, Jr., a companion of the famous World War ace on the flight, had been picked up in the South Pacific on Nov. 12.

"From such information as Capt. Cherry was able to furnish," the war department said, "it is believed

PA NEWC OBSERVES

A lot of folks who looked out of the window this morning as the snowflakes were dropping in bountiful quantities were wondering if it was snowing over in Warren, O. It didn't indicate very good prospects for the game tonight and a long drive over slushy highways, perhaps.

* * *

Gasoline rationing on its first day caused miseries for a lot of motorists. A lot of folks couldn't find their driver's cards, and some who had lost their Federal use stamps found they couldn't be registered without them.

* * *

In the late afternoon Thursday, on the first lap in taking applications for gas rationing cards, Highland school was busy with a steady line of applicants. About that same time, senior high school, which had a much larger staff of teachers on duty for the job, had very few customers.

* * *

Issuing gas rationing books is not such a prolonged or tedious program as that of issuing the sugar rationing books, it was found when registration started yesterday. Likewise there was not such a long period of waiting by the persons seeking to be registered.

* * *

Quite a wintry snow flurry was in evidence here early this morning, following a night of heavy winds.

Detour via Croton avenue, because of the work being done on the South Mill street bridge, is playing havoc with schedules of the Highland-Mahoningtown bus lines during the rush traffic hours of the day.

Four Heavily-Loaded Jap Troopships Badly Damaged By U.S. Fliers

By LEE VAN ATTA
(I. N. S. Staff Correspondent)

GEN. MacARTHUR'S HEADQUARTERS, In Australia, Nov. 13.—Four heavily loaded Japanese troop ships were severely damaged by Flying Fortresses in the Buin-Faisi roadstead, a communique announced today. The enemy vessels were believed preparing to head for the southern Solomons where the U. S. Marine-Army garrison is awaiting an all-out Japanese assault.

The enemy naval base off the southern tip of Bougainville island has been attacked repeatedly by allied land-based bombers under the command of Gen. Douglas MacArthur, and the latest raid was declared to have been particularly effective.

WASHINGTON, Nov. 13.—Vital Japanese supply vessels and warships today are being blasted to the bottom of the Pacific by American land, sea and air forces at a rate that is bound to affect adversely the enemy's war effort in the southern Solomons and elsewhere.

Spearheaded by long-range submarines, the American campaign to cut Nippon's lengthening sea communications has increased in tempo and results during the past few months, with planes playing an important part in the Aleutians and the South Pacific.

(Latest reports from Australia disclosed that American Flying Fortresses again raided Japanese

Ohio Trucker Fatally Hurt

John Comisky Of Youngstown, Suffers Fractured Skull When Casting Falls On Him

John Comisky, about 30 years of age, of 619 Dixon street, Youngstown, employed by the Friedman Transfer and Construction Co., of Youngstown, O., was fatally injured at the Pennsylvania Engineering Works about 9:25 o'clock this morning, succumbing from his injuries a few minutes after being taken to the Jameson Memorial hospital.

Comisky, Pennsylvania Engineering Works officials stated, was engaged in loading a heavy casting on a truck for transportation, when it slipped and fell on him. He sustained a fractured skull and other injuries.

The New Castle fire department ambulance was summoned and removed the injured man to the hospital.

South Beaver Street Work Starts Monday

City of New Castle engineering department today announced the completion of resurfacing of all city maintained streets where there were street car rails, excepting South Beaver street. The improvement of the later street will begin next week.

Grading is practically completed in Sherman street and forms are being set.

South Mill street bridge is closed during the daytime because of welding operations. A floor is also to be placed in a section of the bridge, it was stated

Reduced Air Power Is Evident In German Attacks In Russia

By W. W. CHAPLIN
(I. N. S. Staff Correspondent)

MOSCOW, Nov. 13.—New heavy losses were inflicted today on German assault forces which battered beleaguered Stalingrad in a new all-out assault to subdue the Volga industrial city.

"In fierce fighting our troops repulsed enemy tank and infantry attacks in the Stalingrad area, causing heavy enemy losses," the noon communique of the Soviet high command said.

Nazi assaults northwest of the city also were thrown back and on some sectors the Russian troops improved their positions.

Southeast of Nalchik in the mid-Caucasus the Soviet defense forces carried out local operations against Germans attempting to advance on the Georgian military highway, it was said.

Tobruk Taken By British In Libya Drive

Port Is Seized After Swift Advance Through Province Of Cyrenaica

BRITISH KEEP UP ROMMEL PURSUIT

Advancing British Are More Than 320 Miles West Of Al Alamein, Egypt

By W. P. SAPHIRE
(I. N. S. Staff Correspondent)

CAIRO, Nov. 13.—The Libyan port of Tobruk was captured this morning as Britain's Eighth Army advanced swiftly through the provinces of Cyrenaica hard on the heels of Nazi General Field Marshal Erwin Rommel's battered panzer divisions.

Tobruk, knocked out as port of supply to Axis forces by relentless aerial bombardments by United States and other Allied fliers, was seized after a swift thrust west from Bardia, 70 miles to the east.

(An authoritative British spokesman in London said that loss of Tobruk means that Tripoli now is virtually the only supply port left to Nazi General Field Marshal Erwin Rommel since Benghazi on the western shore of the Libyan hump, has been and still is being repeatedly blasted by Allied aircraft.

(He felt it was out of the question that Rommel would attempt a "second Dunkirk" to disembark his troops since he does not have control of the Mediterranean.)

Advance 320 Miles

The advance to Tobruk carried the British tank and infantry forces 320 miles west of El Alamein, Egypt, from where the gigantic desert offensive to drive Rommel from Egypt was launched by Gen. Bernard L. Montgomery.

Announcement of the great westward sweep of the British forces was made in a communique from headquarters of Gen. Sir Harold R. L. G. Alexander, commander of all British forces in the Middle East.

LONDON, Nov. 13.—Untied States casualties since the American invasion of North Africa have been extremely light according to preliminary information, an American spokesman at allied headquarters in London said today.

LONDON, Nov. 13—Resident General Charles Nogues of French Morocco arrived in Algiers yesterday to confer with Admiral Jean Francois Darlan regarding Armistice negotiations with American military commanders, the Vichy radio reported today.

Gen. Nogues, according to Vichy, expressed complete agreement with Armiral Darlan, former chief of Vichy defense forces, concerning the negotiations.

WASHINGTON, Nov. 13.—President Roosevelt revealed today that he had received a very satisfactory reply from Gen. Francisco Franco, head of the Spanish government, on his note which was sent at the time of the American occupation of French North Africa.

Gas Rationing Work Progresses

Registration Is Being Made At School Houses In City And County

Registration for gasoline ration cards was carried out Thursday afternoon and evening with a high degree of efficiency. At eight o'clock Thursday night some of the boards in the various school buildings were almost without customers.

Each building saw a large number of school teachers on the job and the work of getting applicants through was done speedily. There was no rush, no long line of applicants waiting their turn, almost every application was handled quickly.

The registration continues this afternoon and tonight and all day Saturday. Names in the H to P bracket are registering today and on Saturday names from Q through Z will be registered.

It is necessary to have your owner's card, the number of your Federal tax stamp and the numbers of the five tires upon your car. Registration is from three P M until nine P M and on Saturday from nine A M until four P. M.

Supplemental applications, which means applications for gas above the limits of the "A" card (245 miles per month) may be secured at the registry building and must be mailed to the Commodity Rationing Board.

Declares 1943 To Be Hard Year Of Fighting In War

(International News Service)

LONDON, Nov. 13 — Entrance of the United States into the war on the side of the United Nations ended three years of stagnation, Gen. Jan Christian Smuts, Premier of the Union of South Africa, declared at a press conference today in which he predicted victory in 1944.

"Our friends have come in good force and have taken charge.

"There will be a great offensive year in 1943, but there will be very hard fighting. Make no mistake about that. If we can carry out our offensive programs on an adequate scale next year, it may be possible to make this another 'thirty year war'—starting in 1914 and ending in 1944."

Part Of Typewriters In Use In Schools To Be Taken By U.S.

Twenty per cent of all typewriters purchased by the New Castle school board since 1935 must be turned over to the government, it was learned Thursday night, November 12, when the board met for its monthly business session.

The order comes from the office of Donald Nelson, chief of the War Production Board, and the typewriters are to be used in Washington and in various government offices. From the tone of the letter recieved it is "must" and arrangements will probably be made in the near future to turn over the required 20 per cent. About 70 typewriters have been purchased since 1935.

Women in Shop

Earle M. Cass, head of the vocational shop work in the Franklin shop building, reported that he had been ordered to include women in his list of trainees in machine shop practice and six women are to be placed in the shop immediately.

Gas Ration Move Reduces Meetings For Underwriters

Approaching gas rationing today led officers of New Castle branch, Pittsburgh Life Underwriters association, to schedule the next meeting of the organization for next January—instead of December, according to monthly schedule.

Yesterday, in The Castleton, the membership heard Don Parker of Pittsburgh, inspector of agencies for the New York Life Insurance Co., discuss "One Word Competition."

Declared W. Boyd Barrett, Ellwood City, branch president: "We thought it was best to skip the December meeting in view of the rationing program."

Rationing starts December 1.

London Report Says Tunisia Border Crossed

American And British Troops Reported Advancing From West Into Tunisia

AXIS-HELD AIRDROME AT TUNIS BOMBED

Transport Plans Carrying Axis Troops Shot Out Of Air Near Tunisia

By LEO V. DOLAN
(I. N. S. Staff Correspondent)

LONDON, Nov. 13.—Allied war power was brought to bear against Tunisia today as a combined striking force of American and British troops was reported to have crossed the western frontier of the French protectorate to give battle to German units attempting to maintain a foothold in North Africa.

In the east, Britain's Eighth Army moved into the port of Tobruk, 70 miles west of recaptured Bardia, in Libya, shortening the gap between the two powerful Allied armies bent on crushing Nazi panzer divisions now flanked on both sides before they can be disembarked across the Mediterranean.

Axis Airdromes Bombed

The British Middle East command announced for the second straight day that the Axis-held airdrome in Tunis had been heavily bombed by planes based on the Island of Malta.

The German-operated radio conceded full-scale aerial assaults were being made against Tunis and said the Tunisian capital had had two air alerts today after undergoing a bombardment during the night for two hours and 15 minutes.

Long-range Allied fighter planes caught six Italian transport planes filled with German troops in the Tunisia area and shot them out of the air, a communique from Cairo said.

Axis Troop Planes Trapped

The planes were flying in a northerly direction when trapped and their intended destination was not clear. Allied headquarters announced two days ago that airborne Nazi forces were being sent in to seize control of Tunisia's airfields.

Three columns of Allied troops composed of the British First army and United States forces, under command of British Lieut. Gen. Kenneth A. N. Anderson, penetrated into Tunisia without opposition, a dispatch from Spain to the Daily Mail said.

The Allied land thrust was aimed at taking over the Tunisian naval base at Bizerte and the Tunis airdrome before the Britons and Americans move across into Libya.

After first announcing that Allied raiding planes attacking the Tunis airdrome from 8:15 p. m. until 10:30

'Teen Age Draft Bill Is Passed

Goes To President For Final Action

Drafting Of 18-19 Year Old Youths Expected To Start In Few Weeks

SOME PROVISIONS OF BILL UNCERTAIN

By WILLIAM S. NEAL
(U. P. Staff Correspondent)

WASHINGTON, Nov. 13—The 'Teen Age Draft Bill goes to President Roosevelt for his signature today and the drafting of 18 and 19-year-old youths is expected to be started within the next 30 or 40 days.

War Department officials were reported eager to start induction of the 18-19 year olds, but it was estimated that a month or more will be required to "process them." Some 1,000,000 to 1,500,000 youths will be liable for military service.

Final congressional approval was given the measure lowering the draft age from 20 to 18 when the senate, by a voice vote, adopted a conference report on the bill.

The measure was approved with some senators protesting bitterly against conference elimination of the O'Daniel amendment, which prohibited sending of youths under 20 into combat service abroad unless they had been given a year's training.

In its final form, the measure meets the demands of Secretary of War Stimson and Gen. George C. Marshall, army chief of staff. While War Department chiefs say that new divisions require a year's training they also informed congress that men such as mechanics and air force ground crews can be trained within four or five months for combat duty.

The bill also provides:

Those 18 and 19 who are in high school or similar institutions may request and obtain deferment until the end of the school year if they are ordered inducted during the second semester.

The present law requiring consent of parents for volunteers 18 to 21 is repealed.

Persons engaged in essential agricultural occupations shall be deferred until satisfactory replacement can be found.

Senators differed widely in their interpretation of the farm deferment amendment.

Sen. Peppers (D) Fla., asserted that it freezes agricultural workers in their jobs. Under its terms, he said, a draft registrant who is deferred as necessary in agriculture would be subject to immediate military service if he left the occupation.

Sen. Gurney (R) S.D., author of the bill, asserted that the provision was not intended to freeze farm workers. Present exemptions and deferments would continue, he said, but conceded that deferments ordered under the amendment would end when the agricultural worker left his employment.

cow where the Russians opened counter-assaults heavy artillery duels were fought between Nazi and Soviet batteries.

The communique said also that some fighting had taken place during the night on the northwestern front.

Ending the recent lull, during which their siege forces were reorganized, the enemy attempted to take the offensive along the entire length of the battered Volga city. But the gallant defenders were amply warned of the Nazi plans and repelled all attacks.

The Nazi attacking power was noticeably curtailed by reduced airpower, according to the newspaper Pravda.

(Reports from Ankara told of substantial withdrawals of Luftwaffe squadrons from the Russian front to meet the allied threat in the Mediterranean.)

At one point in the northern factory district, said the communique, the attacks drove a wedge 200 yards into the Soviet positions. An immediate Russian counter attack drove the Germans back 400 yards.

On other sectors of the Volga-Caucasus front Soviet forces firmly to the initiative and pressed the enemy back in a series of local offensives, said frontline dispatches.

Tunis. The President, in a letter to the Tunisian provincial government head, requested permission to move American troops through Tunis, apparently to attack Axis forces in Libya.

MOSCOW, Nov. 13—The Moscow radio reported today that General Albert Kesselring, chief of the Axis air force in the Mediterranean, has ben dismissed for failing to inform the German high command in time of a threatened Anglo-American offensive in North Africa.

LONDON, Nov. 13.—Axis ships have quit the Libyan port of Benghazi, the Rabat (Morocco) radio said today, according to Reuters News Agency. American troops are now in control of Rabat.

The Rabat commentator said that the enemy ships probably evacuated the port which was heavily bombed by both American and British planes in the opening phases of the Allied offensive in the western desert.

Benghazi is "over the hump" of Cyrenaica and well west of Tobruk, which has been captured by the British.

Deaths of the Day

Charles Smith Bennett.

After an illness of over a year's duration, Charles Smith Bennett, aged 80, died at his home in Enon Valley Thursday afternoon at 4 o'clock.

Born in North Beaver township on June 28, 1862, Mr. Bennett had been a resident of Lawrence county in Enon Valley and vicinity all his life. He was a member of the Enon Valley Christian church.

Survivors are his wife, Esther Webb Bennett; two sons, William of Ellwood City, Fred of Enon; ten grandchildren and seven great-grandchildren.

Funeral services will be held Sunday afternoon at 2:30 o'clock at the residence with Rev. Robert Dyke in charge. Interment will be in Little Beaver cemetery.

The body, removed to the Mahoning funeral home, West Madison avenue, will be taken to the residence this afternoon at 4 o'clock.

Mrs. Maud McNulty Schneider

Mrs. Maud McNulty Schneider, a resident of Volant, R. D. 2, died at her residence near Plaingrove this morning at 8:30 o'clock due to complications of two weeks illness.

The deceased was born in Plaingrove township daughter of Joh and Mary Childs McNulty. She lived her entire life in Plaingrove, and for the past 41 years was married to William Schneider, who survives. Mrs. Schneider was a member of the Mt. Pleasant Methodist church, and of the Plaingrove W. C. T. U., and was a good Christian woman, having a fine character, and being well known for her excellent temperance work.

In addition to her husband, William, she leaves two sisters, Laura M. and Grace C. McNulty, of New Castle, and the following brothers, Cassius D. McNulty, Rev. Ira C. McNulty, of Farnhamville, Ia., and Rev. Ernest O. McNulty, of Knox, Pa. She also leaves a number of nieces and nephews.

The body is at the Cunningham funeral home, Leesburg, and will be taken to the residence tonight. Funeral services will be held Monday afternoon at 2 o'clock at the residence, with Rev. J. C. Fulton, former pastor of Plaingrove church and Rev. Raymond Fredericks, in charge. Interment will be in Mt. Pleasant cemetery.

Edward Walter Scott

Edward Walter Scott, aged 75, of 2109 Berger street, died in the New Castle hospital this morning at 11:20 o'clock after one year's illness.

Mr. Scott, born October 8, 1867, had been a New Castle resident for nine years. He was a retired Pennsylvania railroad watchman and was a member of Clifton Flats Mission.

Surviving are the following children: Mrs. Ella Oliphant of New Castle, Mrs. Genevieve Fair of New Castle, Charles Scott of Sarver, Pa., now in the United States army, and 14 grandchildren. His wife preceded him in death.

The body, removed to the Ritchie funeral home, South Mill street, will be taken to the Oliphant residence, 2109 Berger street, Saturday morning.

Funeral arrangements have not been completed.

Hines Funeral

Funeral services for Janice Mae Hines, R. D. 7, Moravia street extension, were held at the Italian Methodist church Thursday morning at 11 o'clock with Rev. Samuel Baker of Clifton Flats Mission in charge.

Two selections were sung during services by Mrs. John Baker and Mrs. R. M. Copper, accompanied by Mrs. F. P. Sulmonetti.

Pallbearers were Donald E. Hawk, Jack E. Cameron, Paul F. Koonce and Frank DiGiacoma.

Interment was in Greenwood cemetery.

Hunter Funeral.

Funeral services for Harry Hunter, West State street extension, were conducted at the Joseph B. Leyde mortuary, Highland at Winter, Thursday afternoon at 2:30 o'clock. Dr. J. J. McIlvaine, pastor of the First Presbyterian church, was in charge.

Pallbearers were Harold Livesay, Hugh Pitzer, Jack Lininger, Kenneth Gaston, Elroy Lockley and Carl Kirchner.

Interment was in Fair Oaks cemetery, New Wilmington.

McIlvenny Services.

Impressive funeral services for Joseph Herbert McIlvenny, 512 West Clayton street, were conducted Thursday afternoon at 2:30 o'clock at the Mahoning funeral home. Rev. Warren Bugbee, pastor of the Mahoning Methodist church, officiated.

Pallbearers were D. D. Rhodes, J. M. Yates, R. W. Hamilton, J. G. Walker, Robert Wilkison and John B. Bechtol.

Pallbearers were Richard Sherer, Carl Sherer, Herman Moore, Clyde Moore, John Wallace and Frank Taylor.

Interment was in Westfield cemetery.

U. S. SUBS TAKING HEAVY TOLL OF JAP SUPPLY SHIPS

(Continued From Page One)

shipping in the northern Solomons and were believed to have inflicted serious damage on at least four transports loaded with troops and ammunition.)

Subs Sink Seven More

Best evidence of the success of this plan was the navy communique which reported that American submarines have sunk seven more Nipponese supply vessels in Far Eastern waters. In addition, one enemy destroyer was torpedoed and probably sunk.

This foray raised to 141 the total of Jap ships of all types sunk and damaged by American submarines since the outbreak of war. The total includes 93 vessels sunk, 21 probably sunk and 27 damaged.

The latest ships sent to the bottom undoubtedly were enroute to Japanese Pacific bases with reinforcements and supplies, or were heading northward toward Japan with critical war materials and foodstuffs from conquered countries.

Japs Unable To Move

The sinkings of submarines, plus others by planes from Australia and Guadalcanal, probably are responsible for the fact that the Nipponese have been unable to move in arms in large quantities to their forces in the southern Solomons.

As a result of this and other factors, the U. S. Marines have maintained control of Henderson airfield on Guadalcanal, key to the defense of the island.

So long as the airfield remains in American hands, U. S. forces can continue to blast Japanese warships in the area and to maintain control of the skies against repeated Nipponese bombing raids.

Since the marines seized Guadalcanal Aug. 7, American fighter pilots and anti-aircraft gun crews aided by carrier based planes and army bombers have destroyed more than 566 Nipponese planes in the southern Solomons.

A navy communique said that on Nov. 11th, fighter planes based on Guadalcanal broke up two dive bomber attacks on the airfield shooting down a total of 17 enemy bombers and pursuit planes and probably destroying five others. Seven U. S. planes were lost.

(Continued From Page One)

the Japanese fighters. This maneuver proved highly successful as the Japanese air arm was caught by surprise and destruction of ground planes was believed to have been heavy.

Eight large fires were started in the airdrome area.

At least four of the Japanese troop ships were heavily damaged by direct hits. One of the vessels showed marks of damage inflicted during a previous raid.

Freed of the menace of enemy fighters, the big Boeing bombers attacked from low level. Returning pilots said the damaged ships swarmed with troops and the decks were piled high with equipment.

Large Ships

Observation indicated that the four vessels were big ones, aggregating 37,000 tons.

Other allied bombers resumed assaults on enemy bases on the island of Timor, southwest of New Guinea. Barracks and other shore installations at Maobisse and Bobonaro were targets of the attack, but the communique gave no details of the results.

In the land fighting on New Guinea where American and Australian jungle fighters are forcing the Japanese back on their coastal base at Buna, allied columns continued to press the enemy back with heavy losses.

The communique said Japanese forces have been cleared out of the Oivi-Gorari area, approximately 50 miles from the north coast of the Papuan peninsula.

A number of prisoners were captured along with material, including field guns, horses and supplies. While the ground troops continued their drive towards Wairopi, the next enemy base, allied attack planes continued to bomb and strafe the Japanese rear lines.

will be paid $4.50 per day instead of $3.50 and high school substitutes will be paid $6 per day instead of $5.

The matter of Dr. A. A. Newmark's entering armed service came before the board. Dr. Newmark is the school physician and were he to leave, the schools would be without a medical head. The board will ask for his deferment upon the grounds that he is essential to the system.

John B. Bechtol, business manager of the board, was authorized to purchase 290 gallons of buffing wax from Socony-Vacuum company at a price of $1.024 net per gallon.

A resolution of sympathy was ordered drawn for the family of the late J. Herbert McIlvenny. Mr. McIlvenny served 12 years as a director of the New Castle board and was a capable director.

The board granted the use of the administration building facilities for a conference of school board secretaries of western Pennsylvania, to be held here November 21.

Air Raid Wardens

Permission was granted for the use of Benjamin Franklin junior high school auditorium by air raid wardens on the night of December 3.

It was suggested that the school opening and closing hours be advanced one hour in order to conserve electricity. Some discussion brought out the fact that many senior high school boys are working, and that a number of boys in the junior high school carry newspapers. To advance the time of their dismissal in the afternoon would handicap them, it is thought, and nothing came of the matter.

Bids will be asked for, for 20 fluorescent lights to be used in the two sewing rooms and the drafting room of the senior high school.

Bills in the amount of $5689.47 were authorized paid. The bills cover a multitude of small items purchased by the business manager during the month, utility services and supplies.

Marjorie McGeorge, a teacher in the Thaddeus Stevens school, submitted her resignation, effective January 1, 1943, due to marriage. The resignation was accepted.

The employment of John Colgan as a blue print reading instructor in the shops and Clayton Pitzer as a tool room employe was authorized. These men will be paid by the federal government as their work is in defense preparation.

HOLD HOPE CAPT. RICKENBACKER MAY BE ALIVE

(Continued From Page One)

possible that other survivors may be on life rafts in the same general vicinity."

Hopes For Rickenbacker

The official announcement did not mention the name of Capt. Rickenbacker when it stated that other survivors may be on life rafts, but the mere word that one man aboard Capt. Rickenbacker's plane had been saved gave rise to hopes that the beloved ace of the first World War was still alive.

Capt. Rickenbacker was accompanied by seven other men in the flight. From the fact that Capt. Cherry managed to suvrive it was thought possible that those aboard the ship had time to take to life rafts before the big army ship Capt. Rickenbacker was flying, sank at sea.

With the rescue of Capt. Cherry, the war department said that an intensive search of the area was being made by surface vessels and long range patrol aircraft for other members of the crew of Capt. Rickenbacker.

Capt. Cherry was in good condition but weak after his three week ordeal at sea, the announcement said.

The war department said his early recovery is expected. He is a resident of Abilene, Tex.

Missing Since October 23

The army plane, bearing Capt. Rickenbacker, World War 1 ace, and 7 companions, was reported missing on Oct. 23. Rickenbacker was on an inspection tour for Secretary of War Stimson.

The war department announced:

"The war department has been advised by the navy that Capt. William T. Cherry, Jr., U. S. Army, a survivor of the Rickenbacker flight, was picked up in the South Pacific on Nov. 12. Capt. Cherry is in good condition, but weak. His early recovery is expected.

"Capt. Cherry's wife, who resides at Abilene, Tex., has been advised of the rescue of her husband.

"From such information as Capt. Cherry was able to furnish, it is believed possible that other survivors may be on life rafts in the same general vicinity. An intensive search of the area is being made by surface vessels and long range planes.

"Capt. Edward P. Rickenbacker was en route from Honolulu to the southwest Pacific on which he and his party was travelling was lost.

"The plane was last heard from on Oct. 23. In addition to Capt. Rickenbacker, and Capt. Cherry the members of the party were:

"Col. Hans C. Adamson, Air Corps, Washington, D. C., passenger.

"2nd Lt. James C. Whittaker, Air Corps, 306 Lexington Way, Burlingame, Calif.

"2nd Lt. John Deangelis, Air Corps, 16 East Columbus Ave., Nesquehoning, Pa.

"Staff Sgt. James W. Reynolds, Air Corps, Box 462, Ft. Jones, Calif.

"Sgt. Alexander T. Kaczmarczyk, Air Corps, 426 Elm St., Torrington, Conn.

"Pvt. John F. Bartek, Air Corps, 80 Banard St., Freehold, N. J."

LONDON REPORT SAYS TUNISIA BORDER CROSSED

(Continued From Page One)

p. m., the Vichy radio said two more raids were made early today.

May Be 2000 Nazis

Immediately after the invasion of American Expeditionary Forces in North Africa Hitler sent air-borne troops to Tunisia in an attempt to hold control of the colony's airfields, and a report from Cairo today estimated that 2,000 Germans had arrived at Tunis.

With the Americans firmly in control of Morocco and Algeria and Nazi troops taking up positions throughout all of France, French Admiral Jean Francois Darlan who negotiated a peace in North Africa with the Americans added his voice to the appeal of Lieut. Gen. Dwight D. Eisenhower to the French fleet to join the Allies at Gibraltar.

He asked the officers of the main fleet, still reported based at Toulon, to bring their ships over to the Allies.

Darlan Suggests Fleet Move

The former Vichy defense chief, now being "entertained" at Algiers by the American command, refrained from "ordering" the fleet officers to move, merely suggesting that they join the Allies or at least remove themselves from points where they might fall into German hands.

Yesterday the Vichy station, entirely unreliable since it has fallen under complete domination of the Nazis, said Hitler's occupation forces would stay outside of Toulon because of a declaration that the fleet would resist aggression.

Arrival of the British and American forces at Bone, with U. S. Major General Charles W. Ryder second in command, placed the Allied troops at a key point along the railroad system leading to Tunis. There are two railways leading eastward from Bone, one of them an excellent double-track line from Philippeville to Bizerte and Tunis.

Air forces and warships converged on the new battlefront to clear the Axis completely from North Africa. A British naval spokesman said that Bizerte would have to be taken by combined action of war vessels and land forces.

Once established in Tunisia the Allies will have completely cut off Nazi General Field Marshal Erwin Rommel's panzer units fleeing across Libya from Egypt. The landing of Nazi air-borne forces in Tunisia was seen as an attempted delaying action in an effort to save Rommel who, it appeared, will strive to disembark from some point in Libya, probably Tripoli.

Eleven of every 12 farms in Englandn have no electricity.

TOBRUK TAKEN BY BRITISH IN LIBYA DRIVE

(Continued From Page One)

tinued its pursuit of the panzer army into Cyrenaica, taking more prisoners, General Alexander announced in a communique.

Rommel's main Nazi forces, which abandoned the majority of Italy's infantry divisions on the wastes of Egypt to flee headlong in retreat, scurried beyond Tobruk in their flight from the British but Allied planes preceded the Eighth Army tanks and ground troops to blast their line of retreat.

Continue Attacks

"Enemy vehicle concentrations between Gazala and Tmimi were successfully bombed and machine-gunned Wednesday night," the communique said.

"During yesterday our fighters continued large-scale low-flying attacks against enemy columns on roads west of Tobruk."

The capture of Bardia came just 10 days after General Montgomery's forces, strongly supported by American air units and other Allied fliers, cracked the Axis defense line west of El Alamein after a 12-day assault.

As the Eighth Army closed in on Rommel from the rear Royal Air Force planes under the Middle East command struck heavy blows against the Tunis airdrome in Tunisia, just west of the Libyan border. American and British troops driving from Algeria moved in on Tunisia from the west.

"The Tunis airdrome was bombed Wednesday night," the Middle East command communique said.

"Yesterday six large Italian troop-carrying aircraft, full of German troops and flying northward, probably from Tunisia, were shot down into the sea by our long-range fighters.

Axis trucks lined the coastal road of Libya far beyond Tobruk in the Tmimi and El Gazala area some 60 miles to the west. The toll of Axis prisoners mounted rapidly as British units mopped up the remnants of the German and Italian forces beaten in Egypt.

SPEAKER HEARD AT B. P. W. CLUB DINNER

Business and Professional Women's club members gathered in The Castleton Thursday evening, November 12, for their dinner meeting. They had as their speaker, Roger Jewett, executive secretary of the Greater New Castle Association.

Miss Evelyn Spencer introduced Mr. Jewett, who chose for his theme "New Castle's War Effort." He told what residents of the community are doing toward the war program, and emphasized the part that women are playing in many phases. Other facts were revealed regarding industries and their contribution.

Next regular meeting will be December 9 at The Castleton with dinner at 6. The Social Service committee with Miss Helen Hinkson, chairman, will be in charge. Music program for this date will be arranged by Miss Ruth Drescher, chairman.

At last evening's gathering, it was decided that instead of bringing toys for children at Christmas time this year, a money contribution will be given for charitable purposes during the holidays.

On November 19 a party will be held in the home of Miss Mary Bigley at 8 o'clock, Miss Helen White, financial chairman, announced.

Group To Meet

SOME RESULTS OF HOARDING

RATIONING is the order of the day and that it is necessary in many respects, nobody can seriously deny. Rubber, gasoline, oil and sugar have already come under rigid control. One other commodity which has become due for rationing in the near future is coffee. Reason for this is given in lack of transportation. It is the same old story—plenty of coffee in Brazil, but not enough ships to get it here. This, plus greater coffee demands for the armies of the United Nations, has apparently brought rationing.

But it would seem that there is still another important reason why rationing will be necessary and that is—hoarding. It is stated that despite the greater need for coffee, the nation's supply, except for some local shortages, is still normal—in other words there is as much coffee as usual.

The apparent shortage therefore is said to be due to the hoarding of coffee by timid consumers who are afraid they may sometimes be without their favorite beverage. It is easy to see that it thousands of families all over the country each put fifty or a hundred pounds of coffee into the basement, there is bound to be a shortage. As there is hoarding of this kind, rationing is now inevitable so that everyone may have coffee, and if the statisticians are to be believed, everyone could have coffee without rationing if it were not for the hoarders. The same thing could have been true of sugar, as the shortage appeared due to hoarding in the early days of the war.

At the same time it is declared by an official of the OPA that the shortage of Nylon hose is artificial. Any woman who likes these filmy stockings can testify that there is a shortage. Yet this official says there are a million dozen pairs of Nylon hose on hand which would seem to be "some stockings." In this instance it is not the consumer, but the wholesalers, and other distributors who are blamed for the hoarding and the artificial shortage.

Stories have gone out recently to the effect that there are plenty of tires on hand and they would soon be offered through the regular channels of trade. In this latter the wish is apparently the father of the thought. William M. Jeffers condemns these rumors and says there is a real shortage of tires. In this instance, therefore, conservation—not hoarding, of tires is necessary.

While there is room for controversy over some of these problems, it seems to be a fact that timid folks who buy up more than they need at the time are in part responsible for shortages and rationing. The only things it pays to hoard is War Bonds and Stamps.

VALIANT SOLDIER OF FRANCE

American decision to tie up to General Giraud as French leader in North Africa scores a bullseye. The 63-year-old fighter, by his escapes from German clutches in World War I and seven months ago in this conflict, clinched his hold on the French people.

Neither Petain, who probably admires him, nor Laval, who wouldn't have dared anyway, would give him up to the Gestapo. Even prostrate France wouldn't have stood for that.

But General Giraud is something more than a Gallic Houdini. He is one of the foremost soldiers of France, on his fighting record and his proved qualities of leadership, says the Philadelphia Inquirer. He succeeded General Lvautey as French commander in Morocco after suppressing the Riff rebellion. He knows North Africa. And he hates Nazis.

Lincoln was credited with the observation when old General Winfield Scott elected to stand by the Union in '61, that it was "worth a division" to the Union cause. General Giraud should be worth an army. Even elements in France and North Africa that may have shied away for various reasons from the Free French movement are likely to join behind Giraud, while the Free French themselves, including General de Gaulle, have been enthusiastic in their admiration of him.

The Nazis couldn't keep Giraud in a cage. Now he looms large as the man who can lead his people out of captivity. Certainly his dramatic appearance at Algiers immensely strengthens the United Nations drive to wrest all Africa from the Axis.

ANOTHER ANNIVERSARY

Lincoln's Gettysburg Address delivered 79 years ago this month—November 19—holds even more significance today than it ever has since the day the Civil War President made it.

Its appeal is not only immortal, but universal insofar as the freedom loving peoples of the entire world are concerned. This is shown in the famous lines, "...a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal," and that America was then engaged in a great war "testing whether that nation, or any nation so conceived and so dedicated, can long endure."

Lincoln made his speech in Gettysburg, November 19, 1863, dedicating the National Cemetery of Civil War dead. According to some historians, he wrote it in the Wills House, where he was a guest during his stay in Gettysburg.

This year in Gettysburg, special exercises will be held in the National Cemetery honoring the anniversary of its dedication.

If Rommel's goal was Suez or bust, he made it.

Even the confidence men are having to substitute. Instead of plating their goldbricks with gold, they now use plastic.

We know a girl who knows so little about the war she thinks an airplane spotter is a guy who gives it a coat of paint.

It was predicted that 1942 would be full of headaches for the Allies. It is now safe to predict that 1943 will be full of acute indigestion for the Axis.

The Nazi army which swept through Poland, Norway, France and Jugo-Slavia in a few days has now gotten down to the point of being thankful for a city block at a time in Russia.

The Parent Problem

By Garry C. Myers, Ph. D.

TEACH CHILD TO HANDLE MONEY WISELY

Every child should learn early to handle money wisely. Some children with normal opportunities to earn money are able to derive good training to this end. However, not all children who earn money early learn to use this money wisely. Indeed, some use it very foolishly, if they have not had proper guidance.

At what age should an allowance begin? No one can safely name the age for all. The proper age for any particular child to begin an allowance will depend on the earlier training and experience of this child. Even at the age of 12, the child who, receiving on Monday an allowance for the week, spends it all on that day, is not ready for so much responsibility. Yet another child might be ready as early as 7 or 8.

First Steps

As soon as your child begins to spend a cent, nickel or dime, announce to him he will receive a nickel, say, on Monday, but no more for that week. Relatives need to be won to co-operate. Stick to this program rigidly. As soon as this child can be induced to save the nickel of this week till he gets the nickel of next week, in order to buy a cherished object for a dime, he has made the first big step in learning to handle money and use an allowance.

After he enters school, he may have certain regular expenditures for bus fare or lunch. When you believe he is ready to begin an allowance, sit down with the child and write down with him his regular necessary expenditures for a week. Have him check with you on these a few weeks later. Finally, give him, say on Monday, an amount equal to the total of these items for the week and add to that a small amount, five or 10 cents to do with as he likes. Naturally this free item will be gradually increased as he grows older. Unfortunately, many parents think of such free money only as an allowance.

Though you will be glad to go over his accounts with him at the end of the week, you will not require this lest he be tempted to deceive in his report. He must know he will get no more than this definite allowance during the week unless some new, unforeseen need for money arises.

To work well, his allowance must not be supplemented by gifts nor reduced by the use of any of it for penalties.

The first week of the allowance is most important. Do your utmost to help him succeed at it. Some beginners put in envelopes the amount of money needed each day or the total amount needed for each item for the week. A certain beginner made a box with a bin for each day. Such devices help the child to have a definite plan and follow it.

My special bulletin on allowances may be had, without cost, by writing me at 735 East 45th street, New York City, enclosing a self-addressed envelop with a three-cent stamp on it.

Solving Parent Problems

Q. A girl who graduated from high school with good grades says she has just lost her father who left her $1,600. She says she would like to learn to teach home economics but wonders if it would be wise to undertake a college course on this amount, in order to get the training.

A. She was advised to plan a regular college course, specializing in home economics; that by working some on the side, probably at college, and being very economical she could make the money last; that the cost might be relatively low in a state teacher's college, state college or state university; that in some such colleges or universities the tuition is less for home economic students than those in some other fields; that, moreover, she should talk her problem over with her local high school principal.

One Man's Opinion

Well, he fooled us again.

He was saying we ought to leave the planning to the military men and we were muttering why didn't he and Winnie practice what they preached.

And all the time there were the boys with their heads together cooking up the biggest, most spectacular and dashing offensive of this or any other war.

HINTS AND DINTS

Sun sets tonight 5:46. Sun rises tomorrow 7:43.

Deliver us from indifference!

It is claimed that millions of voters did not go to the polls and vote at the recent election. Those who did vote knew the right way to vote.

The man who gets angry suffers more than the fellow who is the object of his anger.

The gobbler doesn't spread his tail feathers when his head is falling on the block.

THE HEEL YOU SAY!

About 35 years ago a certain young men had a job in a factory where heavy machinery jarred the whole building. The young man was not very robust, and he did not like the jar of the machinery.

One day he brought a rubber mat to the factory, and stood on it. At once, he found relief. The jar did not annoy him when he stood on the mat . . . but after several days, somebody stole his mat. So he got two pieces of rubber and nailed them on his heels. This idea gave him two little rubber mats that nobody could steal.

The name of the young man was O'Sullivan . . . he was the original inventor of rubber heels. A simple idea yet, in the American Way, a fortune was built up, by its originator.

The most successful liar is the one who lies the least.

The finer the teeth the oftener and wider they grin.

When Hitler makes a speech he generally makes it in a saloon. That's where tough speeches are often heard.

FOOD AND PERSONALITY

The ancients said one man's food may be another man's poison. The new name for it is 'allergy'. It is the idiosyncrasy which makes the most respectable proteins disagree with a particular individual. One authority says that perhaps one person in every two is allergic.

If your neighbor—or husband—tells you that so standard a commodity as eggs disagrees with him, or milk, or lamb chops, don't think she is crazy (the neighbor), or pampers himself (the husband). It may actually be so.

This is not to overlook the perils of social anarchy that lusk in allergy. If a grown man is permitted to rebel in the name of allergy against soft-boiled eggs, what can we say when youth raises the standard of revolt against spinach?

We are often more interested in the conversation of people who have no education than in that of people who have too much education.

A North Hill man recently made the statement that women endure pain much better than men do. "Who told you that, a doctor?" spoke another man. "No, the shoe dealer."

A man never realizes how wonderful his home is until he hears his wife describing it to a new acquaintance.

As the philosopher says, it may be noble to admit mistakes. But that is no excuse for making them. There are other ways to be noble.

It has always been our belief that dogs like to live with poor people.

After every election there is a row about the votes not being counted right. Most always by those counted out.

New Castle stands high in the United States for the gathering of scrap. It's just such things that advertise a city well, and we should remember that in the drive to come soon.

Meatless days will not keep some birds from beefing.

In England now the slogan for clothes is "Make it do or mend it." That means patching, you bet.

It looks like a tough winter for the bridge playing coffee drinkers—women, we mean. Some of the gals drink four or five cups of Java at a bridge party. Somebody is always getting hurt in this war.

GIRLS WHO DEMAND EXPENSIVE AMUSEMENT

Betty, who has just turned seventeen, is glamorous and chic, but unhappy because all of her swains are slipping through her fingers to her less gorgeous rivals. A weekend with her family has allowed me to diagnose her case: Although she can walk 10 miles a day over a golf course, she can't go four blocks in town with a boy unless he orders a taxicab. If he suggests a snack after the movies, she leads him to the most expensive hotels where she demands caviar, lobster and artichokes. When he asks her what she prefers in her corsage for the dance, she chooses orchids. Her rebellious cavaliers have all been college boys of prosperous families, but even millionaire fathers limit their sons' allowances. So, despite her many charms, Betty soon makes herself a repellant liability rather than a coveted asset.

Question: Should a woman use her husband's initial or her combined maiden and married initials on her silver and linen purchased after marriage?—C.C.C.

Answer: The initial of the husband's surname should be used on silver and linens purchased after marriage.

Question: I should like to give a tea, but am at a loss as to what kind of invitations should be sent out for such an occasion. Please tell me.—Susan.

Answer: The type of tea you will give should determine the type of invitation to be issued by you. If you intend to have a pleasant informal gathering of your intimate friends, you may invite them by telephone or write notes to them extending an invitation. Or, if you prefer, you may send your visiting cards specifying the time, date and the fact that it is to be a tea.

Drastic Shakeup In Cabinet Ranks Likely
No Victory Smile By Dems Over Election
Frances Perkins Is One Of Those On Grid

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, Nov. 13.—Vice President Henry A. Wallace's diagnosis of the recent election result as a Roosevelt administration victory, because the Democrats did not lose control of the senate and house of representatives, has caused a considerable amount of smiling in Washington political circles. To be more exact, they are not exactly smiles, so far as the Democrats are concerned. They're wry grins, instead, which don't signify satisfaction, but merely imply the would-be smilers' contention that a severe kick in the pants isn't necessarily fatal.

There is, however, a substantial bit of argument to the effect that present members of the cabinet ought to offer their resignations in a cluster.

This proposition's advanced by some Democrats as well as Republicans.

The Republicans themselves don't insist that all such resignations should all be accepted. They think, though, that several of 'em should be. The Republicans say so on general principles; the Democrats as well wishers toward their own party.

Frances Perkins is panned especially.

"Ma" may be done a certain amount of injustice.

The dope is that her labor department has been unduly favored at the expense of agriculture, and that the farmers are on her trail to a degree that makes her unfairly conspicuous. Yet, of course, the farmers complain that Agricultural Secretary Wickard hasn't taken adequate care of 'em.

Morgenthau Another

Treasury Secretary Morgenthau, it goes almost without saying, is on the pan for current taxes.

War and Navy Secretaries Stimson and Knox naturally are accused of derelictions in their respective fields of operation.

State Secretary Hull apparently has functioned pretty competently. He hasn't quite lined up Argentina and Chile, but he's gradually acquiring 'em.

Justice, the postoffice and the interior aren't factors.

The interior and commerce divisions will be, after the war, when readjustments start, but, as yet, they don't signify.

There probably will be some sort of a post-war readjustment department, too, later—a department of which Owen D. Young, today's chairman of the General Electric company, promises to be the head, as secretary of transportation. That's assuming, to be sure, that the current political authority's still in power then. It's reckoning on it as a potent influence among peacetime influences. It's slated to coordinate railroading, motor transport and aviation.

The army and navy are liable to be defensively compacted together, but transportation apparently is due to be separately calculated with.

In the meantime, and immediately, New Deal leaders are demanding a clean sweep of the Democratic national committee.

Flynn May Go

Differing entirely from the Wallace verdict, Democratic sentiment, in general, demands a wholesale cleaning out of Chairman Joe Flynn and associates, and a completely new set-up.

They want younger men, the rising generation urges.

There isn't any dispute on the war issue.

There IS one on economics.

They mix, somewhat.

It's interesting to note that Senator George W. Norris, beated for congressional re-election, was suggested for the federal supreme bench. He's 81. Nobody, at his age, ever was appointed to it. He's a left-over, from a past generation. But wasn't it, maybe, a better generation than this one?

Senator Norris' feelings are hurt by his defeat at the polls.

You don't have to agree with him entirely, to sympathize with him.

His defeat is personal, not alone political—and after so many years on Capitol Hill!

He isn't exactly personally defeated, either.

He's defeated as a broad-scale liberal of a lifetime's standing.

COMPARISON

We'll be seeing them tomorrow
boys with blank and sightless eyes.
Broken lads who go on breathing
yet to toil can never rise.
And against that sort of service we
shall seem a sorry crew
If we've ever stood and quibbled
over tasks we're asked to do.

They'll be coming home from battle
as our Country's glorious dead!
And we'll have to group about them
as the last few words are said
Oh, I wonder how we'll do it?
How to face them we shall dare
If for any trivial reason we have
failed to do our share?

We shall have to go to meet them
when the victory is won.
Have to sit with them and listen as
they talk of what they've done;
And I wonder how we'll do it if
the least of them finds out
That for any selfish reason we have
idly stood about.

Bible Thought For Today

Search me, O God, and know my heart, try me and know my thoughts; and see if there be any wicked way in me, and lead me in the way everlasting.—Psalm 139:23, 24.

LOOKING AT LIFE

—By Erich Brandeis

Wendell Willkie, statesman, lawyer, politician, military expert with 30 days' training, and all-around nice fellow, has told us in no uncertain terms that we must start a second front AT ONCE.

My little Sealyham dog, who undoubtedly heard Willkie's speech, went out advertising yesterday.

On the front lawn four much larger dogs—an Irish setter, a Dalmatian, an Airedale and a Collie—were having a meeting, the subject being "Dog Nutrition Under the Rationing System".

Deuce, my dog, resented their assembling on his front lawn without permission.

He opened his mouth wide and said "Woof".

The other dogs paid no attention to him.

Deuce opened his mouth wider and said, "Woof Woof".

The meeting just went on.

Deuce decided to open a second front.

His tail high and growing ominously, he charged, attacked and bit the Airedale in the hindquarter.

All four dogs stopped their discussion, turned around and chased Deuce ignominiously to the door. Hearing his pitiful yelps my wife let him in before he had the stuffing bit out of him.

That Sealyham of mine will never believe Wendell Willkie again.

I know, because when Deuce, as he usually does, brought the paper in the morning, he had deliberately torn off that part of page one which contained an article about Willkie.

And, if I understand dog language correctly he said to me, as he put his head in my lap:

"Never open a second front until you are sure of your first one."

The World and the Mud Puddles

COURAGEOUS CHINA

To the United Nations, fighting in defense of decency and human dignity, the month of October, 1942, had more than passing significance.

It was just thirty-one years ago the third week of October that an awakening China overthrew its ancient Manchu dynasty and established itself as a Republic, setting aglow in that vast land of four hundred fifty million souls the spark of a new faith in freedom and China's destiny. Since 1937, in the crucible of war, that faith has been hammered to the hardness of an alloy steel. Only a people supported by this faith, this devotion to the cause of a new and happier future for their country, freed alike from bondage to ancient ways and to foreign powers, could unflinchingly resist—as poorly armed as China has—through five long years of warfare. Yet today, with unshaken courage and determination her fighters continue to press forward the battle against Japan.

Strategically, China is a bastion of strength to the United Nations. From its coastal zones, the islands of Japan lie temptingly exposed to air attack. But should China's resistance fail for lack of weapons, the resources and fighting power of Japan would at once be several times multiplied. It is with good reason that the United States has been re-doubling its efforts to pour military supplies into China to aid the battle against our common foe.

This, of course, is all very disturbing to the Axis Powers, who have tried so desperately to split asunder the United Nations by picturing this as a war between White and Yellow races, or between Bolshevism and Christianity, or between "Aryans and non-Aryans". It is a war between the forces of aggression and world enslavement and the forces for freedom and peace. Among these latter stands the Republic of China, whose valorous civilians and combatants America proudly salutes, and proudly claims as an ally.

WASHINGTON—President Roosevelt at Armistice day ceremonies: "On this day, of all days, it is heartening for us to know that soldiers of France go forward with the United Nations."

LONDON—King George VI in a speech from the throne: "In the last few days Providence has blessed our arms and those of our American allies."

BOSTON—Senator Claude Pepper of Florida warns: "If we are not sincere when we say we fight for democracy, we are preparing to betray another generation after this war."

LONDON—Prime Minister Winston Churchill—"An attack which will be made in due course across the channel or the North Sea requires an immense degree of preparation. Of course should the enemy become demoralized at any moment the same careful preparations will not be needed. Risks could be run on a large scale."

DAY OLD INFANT BORN ON ARMISTICE DAY GETS WAR BOND

One day old Master George Robert Fisher, son of Mr. and Mrs. George J. Fisher of R. D. 5, New Castle, was given a twenty-five dollar War Bond by his grandparents, Mr. and Mrs. George Fisher of Richelieu avenue.

Infant George Robert arrived in this world on November 11, Armistice Day, at Jameson Memorial hospital.

The rapid expansion of Government expenditures for goods and services will raise them to an estimated annual rate of $89 billion in the first half of 1943, according to the Department of Commerce.

His Interest In Funerals Helps Win Promotion

(International News Service)

SOMEWHERE IN AUSTRALIA—A keen interest in funerals is not the accepted way to gain promotions in the United States Army, but it did the trick for Sergeant Fred Calloway, of Folla, Indiana.

A mortician before joining the army, Calloway became interested in Australian methods, spending much of his free time visiting funeral parlors and attending funerals.

After a thorough, if somewhat grim, investigation, of the art of undertaking in Australia, Private Calloway finally pronounced judgment for the benefit of the local press: Australian funerals were not conducted with sufficient pomp and ceremony.

The newspaper paragraph caught the eye of his commanding officer, and Calloway was sent for, promoted to technical sergeant, and appointed mortician for his unit.

The army, he says, isn't such a bad place after all!

Benjamin Franklin's Press Printed First Westminster Paper

(Special To The News)

NEW WILMINGTON, Nov. 13.—Westminster college's first publication, which appeared early in 1855 as the Westminster "Herald," was printed for a time on Benjamin Franklin's old press which college authorities brought from Philadelphia to New Wilmington, historical records of the college reveal.

Shortly after Dr. James Patterson was inaugurated president of the college at the start of the fall term of 1855, and just before the first Old Main building was completed, the Westminster Herald was started as a weekly newspaper. The Rev. George C. Vincent and the Rev. D. H. A. McLean were the first editors, both being members of the faculty.

First Building Used

Speaking of this first Westminster publication, an early account written by Ellen Dickey Gamble, daughter of William Dickey, one of the founders of the college, says, "it was published in the first college building which was known as the printing office for years after. The publishers brought Benjamin Franklin's old press from Philadelphia, and for a time the Herald was printed on it until a new cylinder press was purchased."

The present "United Presbyterian" official organ of the United Presbyterian church owes its start to the ambition and hard work of the Rev. Mr. Vincent and Rev. Mr. McLean. Mrs. Gamble's article goes on to say:

"After the union of the churches (Associate church and Associate Reformed church) in 1858, the Herald was united with the other leading organs of the church, "The Preacher" and "Presbyterian Witness" and took the name of "The United Presbyterian."

Published As Weekly

The Herald first appeared as a weekly newspaper, in which form, also, the United Presbyterian was printed for many years. A copy of the United Presbyterian dated "Pittsburgh, January 7, 1863," carries under the front-page flag: Constitution of The Preacher and Westminster Herald." The United Presbyterian was then published at 74 Third street, Pittsburgh, in the old Singerly building.

So the Westminster Herald, first started as both the official organ of Westminster and of the church, became in the course of years, "The United Presbyterian." For a number of years afterward, the printing of the publication was transferred to Pittsburgh and Westminster had no newspaper.

"Holcad" Founded

It was not until Dr. R. J. Love, professor of Bible at Westminster from 1921 to 1931, joined with students in 1884, that another publication was started. This was "The Holcad," present student weekly newspaper, named for one of Jason's ships in the mythical story of the search for the Golden Fleece.

From the old Westminster Herald, printed on Franklin's press, Westminster college publications have developed to the present outstanding newspaper. The Holcad, which has been awarded the coveted "All-American" rating by the Associated Collegiate Press for the past three consecutive years.

MOTHER OF SIX SOLDIERS NOW U. S. CITIZEN

(International News Service)

PITTSBURGH, Nov. 13—Citizenship rights were granted Thursday to Mrs. Joseph Kovach, 54, of nearby Imperial, who has given six of her 11 sons to the fighting forces of her adopted country. She came here from Hungary in 1910.

"This is one of the happiest days of my life," she said after being naturalized in federal court. "I'm proud to have my boys serving my adopted land."

A seventh son expects to be inducted within a few weeks. Two of her boys are in England, a third is in Alaska, and the remaining three are in this country.

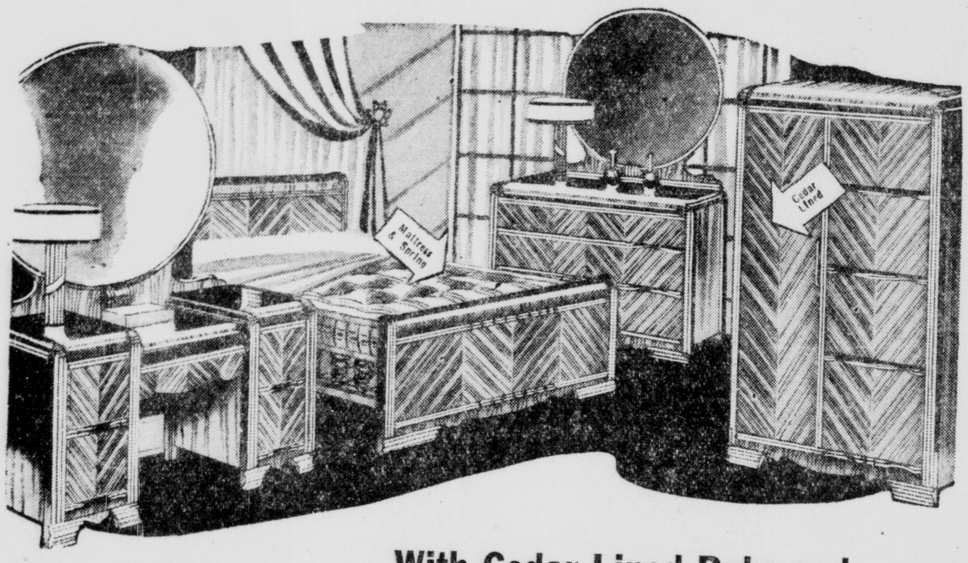

Argentina plans to issue $30,000,000 in small coins.

Babson Says Length Of War Largely Depends Upon Union Labor Plans

By ROGER W. BABSON
Copyright—1942—Publishers Financial Bureau, Inc.

BALTIMORE, Md., Nov. 13.—At the risk of being condemned by Washington as an "arm-chair strategist," I wish to say a word on how to shorten the war. I'll take for my text: Ecclesiastes 3: 1-8 inclusive.

R. W. BABSON

What Dictator Byrnes Must Do

Labor unions, like most everything else, have their usefulness. Labor leaders are as patriotic as financial leaders. For every bad labor actor, whom Pegler names from Main Street, I can name a bad financial actor from Wall Street. No one group is today free from blame.

But, just as the Interstate Commerce Commission has checked bad railroad presidents and the Securities and Exchange commission is now checking banking, utility and fire insurance dictators, so James F. Byrnes should crack down upon labor leaders. The United Nations never will win this war until labor leaders are rationed as other present non-essentials. The recent Republican victories indicate that this latter will now be done.

England Should Take The Lead

Let's look at the record: If France had held out, World War II would now have been won without the loss of an American boy. Yet, it was the labor unions of France which caused her downfall. If England were not controlled by labor unions, no Germans or Italians would today be in Africa. We are probably justified in giving our 18-and-19-year-old boys to help England; but England should help herself by curbing labor unions.

Another thought: Our labor unions should help the submerged foreign labor by striving to eliminate the colonial system which Wendell Willkie is so vigorously denouncing. This would hasten world peace. Besides, if the poor people of India, Persia and the Dutch East Indies were free to sell their oil, rubber and minerals to any nation, then Hitler, Mussolini and Tojo would be unable to hold their armies longer. Their only logical complaint would be answered and this also would help us win the war.

Axis Free From Labor Handicaps

The simple truth is that England and America, shackled by labor unions and bamboozled by labor leaders, are trying to lick Germany, Japan and Italy which are entirely free from these handicaps. Of course, we will win sometime, but it will not be until England and America suspend the labor unions "for the duration" and reorganize the colonial system.

Of course, I will be flooded with letters from paid labor union officials as to reasons why they should not be interfered with. Other persons will write me telling how certain bankers, fire insurance officials and industrialists are abusing their powers. I am not now disputing or arguing with such people. I am even willing to agree in advance to their claims. I am now discussing only one question, namely: "How long will the war last"

War Can End In 1944

The war will last until the labor leaders turn over their unions to the government the same as employers, colleges and others are turning over their property and hard-won privileges. Concurrently with the elimination of the colonial system, if labor unions in England and American would now voluntarily suspend for the duration, as Rear Admiral Emory S. Land urges, World War II could be over sometime next year, at least as far as Europe is concerned, although it may take 1944 to crush Japan. Otherwise, with the present wrangling between governments, colonials and labor leaders it may take 10 years to lick Hitler and Tojo.

Of course, collective bargaining is sound and, in ordinary times, should be defended. Today, however, we are at war—fighting for our very existence. This is a total war—for all except colonial barons, organized labor leaders and cowardly bureaucrats who are afraid of both. To such, the big "Vs" which we see appear to stand for "votes" rather than for "victory." Let every mother who has a boy in the armed forces give three cheers for Rear Admiral Land.

Speaks With Authority

In conclusion, let me humbly add that I speak with some authority on this subject. During World War I, I was an assistant to the secretary of labor in Washington. Under Mr. Felix Frankfurter, now supreme court justice, I worked very closely with President Woodrow Wilson and finally was appointed by Congress, director general of information and education of the Federal labor administration. For several years, I was secretary of the Society to Eliminate Economic Causes of War. Therefore, I ask readers to give this message very careful consideration.

Manufacture, sale and importation of alcohol in Turkey has been made a Government monopoly, the Department of Commerce reports.

War Ends One Excuse For Playing 'Hookey'

(International News Service)

DALLAS, Tex.—Dallas school kids blame the war for the loss of one of the time-honored excuses for playing hookey—a doctor's appointment.

Because the war has taken so many medical men, the excuse to go to the doctor's is now checked and double checked between the school and the office of the doctor.

Battle Looms On G. O. P. Chairman

Naming Successor To Martin Develops Undercover Party Battle

By HAROLD SLATER
(I. N. S. Staff Correspondent)

WASHINGTON, Nov. 13.—A major under-cover battle between Wendell Willkie's followers and his opponents is under way in the Republican party today over the choice of a new national chairman.

The resignation of Rep. Joseph W. Martin, of Massachusetts, as national chairman to devote his full time to leading the augmented GOP ranks of the house, touched off the contest. Willkie's friends are trying to elect a friendly follower to manage party affairs until the 1944 convention while his GOP foes are seeking to put him on the sidelines in that campaign by denying him a voice in the choice of a new chairman.

It is a contest in which friends of former President Herbert Hoover and former Gov. Alf M. Landon, the 1936 Standard Bearer, are said to be lining up against Willkie, to say nothing of such potential 1944 nominees as governor-elect Thomas E. Dewey, of New York, and the Colo possibilities Sen. Robert A. Taft and Gov John W. Bricker.

It is a battle for keeps.

Many Mentioned

There are a round dozen names being mentioned as successor to Martin, with National Committeeman Werner Schroeder of Illinois, leading the parade. The new chairman will be elected Dec. 7 at a special meeting of the GOP national committee in St. Louis.

There appears to be no organized campaign for Schroeder but rather a drifting of party leaders to his banner. Schroeder has had a series of major successes in Illinois, reuniting the party there into a single faction. After helping to elect a Republican governor in 1940, he managed GOP Sen. C. Wayland Brooks into reelection and won 18 out of Illinois' 25 house seats in the recent election. This record seems to be his major drawing card.

One apparent reason for Schroeder's growing strength may be the fact that Willkie is reported to be opposed to him. The 1940 GOP nominee is said to favor Kenneth Bradley, state chairman and national committeeman from Connecticut. Young Bradley too has had a successful career, by bringing Connecticut back into the Republican column. His handicap appears to be Willkie's support.

Others Promoted

There are others being promoted for the chairmanship. On this list are Harrison Spangler of Iowa; former Sen. John W. Townsend of Delaware, who has led the Republican senatorial committee for three campaigns—the last one while not even a member of the senate; Publisher Frank Gannett of New York, now serving as Martin's assistant; State Chairman Alexander Smith of New Jersey; State Chairman Ralph F. Gates of Indiana; and Committeeman Berak Mattingly of Missouri.

Some Willkie followers also have suggested Harvey Jewett of South Dakota, or Ralph A. Cake of Oregon, as a compromise

The idea among most congressional Republicans is to go to the midwest for the new chairman, hence the number of midwesterners being mentioned. It may well be that Spangler, Gates or Mattingly will be chosen if the present Schroeder boom dies for any reason, but at the moment. Schroeder is a favorite. He can and will win if Hoover, Landon, Dewey, Taft and Bricker actually throw their strength to him at the St. Louis meeting, Dev. 7.

And if he wins, it will mean that the national headquarters will be stripped of Willkie's influence during the 18 months preceding the 1944 convention. That in itself would be a straw in the 1944 GOP wind.

FAREWELL PARTY

A group of friends and neighbors gathered at the home of Mr. and Mrs. James Pearson on Friday night and honored them with a farewell party before they move to Mercer to make their home. The evening was spent playing games and enjoying music. Lunch was served later. Mr. and Mrs. Pearson received a collection of gifts.

MISSIONARY MEETING

Members of the Missionary society of the Christian Missionary Alliance church motored to the home of Mrs. Tillie Ryder in New Castle on Thursday to help her celebrate her birthday. A tureen dinner was served at noon, and the day spent in social chat. The members presented Mrs. Ryder with a lovely gift.

HOUSING SITUATION

Fellow citizens:

In the spring of 1940 the citizens of New Castle took stock of themselves and of the situation which confronted them with respect to gainful employment for all of our people.

All of us remember that, at the time of which the writer speaks, the heavy industries which for many years had provided employment had gone, and were either standing as ghastly sentinels of our economic loss or the places where they had stood were rubble and wreckage.

But, despite the conditions, we believed that by faith and working together we could rebuild our community.

Contrast the situation with today—by hard work, perserverance and the most wonderful cooperative spirit this community has ever seen, there has arisen out of the rubble and wreckage of our lost industries tremendously fine industrial structures which have already provided gainful employment for thousands of our people, and which we believe will permanently provide gainful employment to them.

These industries are of a diversified character, obviously the nucleus of the operating personnel must be brought into the community, and herein lies our responsibility. It is our responsibility to see that these newcomers to our community are made welcome, that they are properly housed, and that they are made to feel at home.

The Housing committe of the United States Citizens Service Corps have given consideration to the housing situation in New Castle and the adjoining areas, and from the committee's own preliminary studies and the statements of interested industry, there appears to be a need for four hundred additional housing units if these newcomers are to be properly taken care of. The Housing committee have been advised that a number of homes can readily be converted into two or more family apartments.

Just exactly what the need is can be ascertained only by a survey, so preparations are being made at the present time for a survey of all of our facilities in the city. This survey will be made by the Women's Division of the United States Citizens Service Corps, using the block plan method.

Our purpose in addressing you at this time is to have you give consideration to your responsibility as a patriotic citizen in this war effort, and when the day of the survey is announced, to provide the information upon which a study can be made to determine just what our resources are and how we can fulfil our community responsibility.

Remember—this great progress has been made in the last two years, we now have the industries to employ not only our own people but others besides, and we shall not have fulfilled our full responsibility until we shall have taken the newcomers and their families into our community, provided a proper place for them to live, and have absorbed them into the family of Pa and Ma New Castle.

Yours very truly,
Norman E. Clark,
Chairman of Housing, Citizens Service Corp of O. C. D.

DISCOVERY WITH TELESCOPE

The first heavenly bodies to be discovered with a telescope were the moons or satellites of Jupiter. Galileo saw them in January 1610. His telescope was a very small instrument that he could hold in his hand.

The British Ministry of Information employs mobile film to keep the public informed of the war effort and encourage participation, says the Department of Commerce.

Australians refuse to work overtime or Saturday afternoons. We can't outgrow the idea that war is only for soldiers.

Long Terms For Bank Bandits

Twenty-Five Years In Prison For Stroudsburg Bank Robbers

(International News Service)

SCRANTON, Pa., Nov. 13—United States marshals today prepared to take Ralph Greco, 35, Newark, N. J., and William Vasilick, 42, Passaic, N. J., to a federal prison to begin serving the longest terms meted out in United States court here—25 years each and fines of $10,000—for robbing two bank messengers at Stroudsburg on August 5, 1941.

Judge Albert W. Johnson imposed the sentences—the maximum under the law—two hours after a jury had convicted Greco and Vasilick of taking $76,000 from two messengers of the First National bank of Stroudsburg while they were removing the cash from the bank to a postoffice a block away. The conviction came after the jurors had deliberated three hours and after a trial that began November 4.

Government witnesses identified Greco and Vasilick as two members of a gang of four bandits that held up the messengers. James Rooney, Paterson, N. J., said by the government to be another member of the gang, was not brought to trial due to the fact he is serving sixty years in the State prison at Trenton, N. J., for other crimes. The fourth member of the gang has not been apprehended.

Defense counsel fought strenuously to upset the verdict of guilty immediately after it was turned on the ground that the evidence did not warrant a conviction. Arguments continued for two hours before Judge Johnson imposed sentence. Vasilick's sentence means that he will spend the rest of his life in prison as he is now serving forty five years for a bank holdup at Pompton Lakes, N. J. He was brought here for trial from Atlanta prison.

Heavy Fines In Theft Of Ration Books For Gas

(International News Service)

PHILADELPHIA, Nov. 13.—Thirty-four Montgomery county residents who pleaded guilty to being "receivers" of gasoline ration books stolen from three Norristown OPA offices by a pair of 16-year-old boys, today had been assessed $10,210 in fines by Federal Judge William H. Kirkpatrick.

They were amoing 95 men, most of them from Norristown and Bridgeport, who were indicted by the federal grand jury in Philadelphia last October 13. Six have pleaded not guilty and will be tried with the other 55, the United States attorney's office reported.

The fines imposed by Judge Kirkpatrick ranged from 10 to $500. Ten Norristown and Bridgeport service station owners and attendants, described a "big dealers" in the stolen books, paid the heaviest fines.

OCD NOTES

Activities Of O. C. D. Workers Are Outlined In This Column

THANKS OCD GROUPS

Frank Sargent, city co-ordinator for the Organization of Civilian Defense today issued thanks to all members of the OCD and auxiliary bodies who participated in the Armistice night parade. He reported that almost 2,000 OCD workers were in the line of march.

MEETING NOVEMBER 27

Citizens of the First and Second precincts of the Second ward today were requested to make plans to attend a mass meeting in the Assembly room, city hall, at 7:30 p.m., November 27. New classes in every division of the OCD will begin shortly afterward.

KEEP HELMETS CLEAN, SAFE

Office of Civilian Defense, city division, today, requested all persons who were issued helmets to keep permanently to pack them in such a way they will remain clean. Those which have no insignia will receive "transfers" later so the insignia can be put on the helmets.

PUMPS COMING

It was reported today that three skid pumps are enroute here, also two front pumps, meaning pumps that can be carried on the front of trucks and operated from the crank shaft of the vehicles. Fire hose for the city fire department is also enroute here, it was added.

TO AWARD D. S. C. TO KELLY POSTHUMOUSLY

(International News Service)

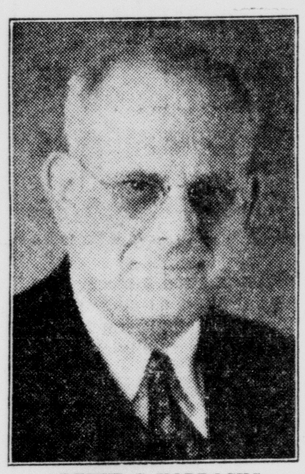

RIVERSIDE, Cal., Nov. 13.—The widow of Capt. Colin P. Kelly, first hero of the war in the Pacific, will receive on Thursday on behalf of her husband, the posthumous award of the Distinguished Service Cross at ceremonies at March Field.

Maj. Gen. B. M. Giles, commander of the Fourth Air Force, will make the presentation, and troops of the post will march in review.

It will be the second posthumous award that Mrs. Kelly has received on behalf of the army flier who sacrificed his life to sink the Jap battleship Haruna in the early days of the war. She previously was presented the Distinguished Flying Cross.

Noted Speaker For Truck Dinner

Arthur C. Horrocks To Address Dinner Of Motor Truck Association Monday

ARTHUR C. HORROCKS

Arthur C. Horrocks, of Akron, O., who speaks at the dinner meeting of the Lawrence county chapter, Pennsylvania Motor Truck Association in the Castleton Hotel Monday night is a speaker of national fame. Mr. Horrocks is in demand continuously and in 1941 travelled 56,000 miles covering speaking engagements.

He will speak on "America After the War" and the word picture he paints is a bright one, according to those who have heard him. He is associated with the Goodyear Tire and Rubber Company in the Department of Public Relations.

Mr. Horrocks is a native of Cleveland, O., but as a boy went west where he worked as a cowboy in Utah. Later he went to Baldwin University and to Mt. Union College.

In recent years he has spent his entire time lecturing and the local organization was fortunate in getting him to come to New Castle. The dinner is at seven o'clock Monday night in the Castleton Hotel, with President J. Fred Clarke in charge.

Young Mennonites Face Draft Action

(International News Service)

PHILADELPHIA, Nov. 13.—Seven young Mennonites from Lancaster county, all charged with violating the selective service law by refusing to work in non-combatant camps, on Thursday rejected Federal Judge William H. Kirkpatrick's offer of free counsel.

"We are a non-resisting people," explained Amos Souder Shirk, 24, of Ephrata, "and if we accept counsel we would be resisting the government and violating our religious beliefs."

Of the seven arraigned, Shirk was the only one who pleaded guilty; the others remained silent when asked for their pleas, and the court directed that "not guilty" pleas be entered for them.

MAN INJURES HAND

Richard Charles, aged 19 years, of 512 East Long avenue, was treated at the Jameson Memorial hospital late Thursday morning, for an injury of the right hand, received when he dropped a heavy box on it while at work.

Mine No. 2 Will Close On Sunday

GROVE CITY, Nov. 13.—Closing of the No. 2 Mine of the National Mining company workings at Brent next Sunday will end the employment of 200 men, and terminate an era in this community.

Forty-two years ago, Mine No. 1 was opened, and at one time five large workings of the Sharon Coal and Limestone company ringed Grove City. The center of operations was at the Mercer-Lawrence county line in Springfield township, where Mines No. 2 and 5 were located. The community was once served by four passenger trains daily, and employed nearly 1,000 men. Three other mines were located in this district.

Recently, the No. 2 Mine has been producing 500 tons daily. It is expected that most of the men will be offered jobs in other operations of the National Mining company.

TRANSPORTATION SURVEY

(International News Service)

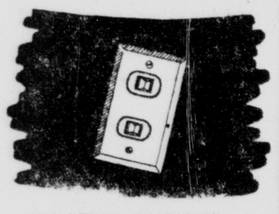

COLLEGE STATION, Tex. — A survey of transportation facilities for farm labor is being made by the Texas USDA board for 1943 production, Chairman B. F. Vance has announced.

Included in the survey are effect of tire rationing on movement and size of labor crews; per cent of cars and trucks totally disabled because of lack of tires; possibility of using school buses for transporting agricultural workers within counties; and the possibility of renting trucks for transportation locally of workers.

When Present Stocks of New Cars Are Sold, THERE WON'T BE ANY MORE! If You're Going to Need a New Car for Essential Work—BETTER APPLY FOR ONE NOW.

RIGHT now, Buick dealers can offer you selection from complete stocks of unused 1942 Buicks built before automobile production halted.

But every week that goes by increases the number of cars now in use that simply must be replaced in the very near future.

These cars can be replaced only from existing stocks. If you regularly drive a car in really essential service, *don't take a chance on finding present stocks exhausted by trying to get the very last mile out of it.*

Turn it in, for use by some other essential user who doesn't drive as much as you do.

New-car buying regulations are aimed at conserving both new cars and cars now in use. They also seek to put new cars in the hands of those who need them most.

Thus if you can show real need – now, while cars are available – you can get a permit to buy now, while cars can be bought.

Permits to buy won't do any good when there are no cars to be had!

Your Buick dealer will be glad to give you all information on new-car buying regulations and procedure. At the moment, he can make immediate delivery to qualified buyers on almost any 1942 Buick model.

But because Buick factories have been all-out on war production for many months, your dealer won't be able to help you when cars now available are sold.

Better see him NOW about applying for that car you're going to need.

IF YOU ARE INCLUDED IN THIS LIST YOU'RE ELIGIBLE

There are seven major classifications for persons eligible to buy new cars under basic rationing rules.

These include: (1) persons engaged in the production of war materials or the prosecution of the war, directly or indirectly; (2) physicians, nurses, clergymen, veterinarians; (3) car-owners engaged in public service, such as fire departments, public health, highway maintenance, etc.; (4) owners of taxicabs and other means of transportation; (5) farmers; (6) newspaper wholesalers; and (7) traveling salesmen in certain fields.

Your Buick dealer will be very glad to help you determine whether you come under the rules of eligibility. He will also be glad to help you fill out the proper applications.

Don't guess about your eligibility — see your Buick dealer now and make sure.

If you really NEED a new car—

"We Reserve the Right to Limit Quantities"

WARNS WAR NOT NEAR END

(International News Service)

OTTAWA, Ont., Nov. 13.—Premier Mackenzie King warned today "Let no one imagine that this world conflict is nearing its close." In a new appeal to young Canadians to enlist in the armed forces he said, "If the Axis legions of hate and greed, which are seeking world conquest, are to be destroyed, the forces of freedom will need all the strength that the United Nations can demand."

QUILT TAKES 53 YEARS

(International News Service)

ROCKVILLE, Ind. — After 53 years, a quilt containing 1,548 small pieces, has been put together and presented to Mrs. Ella Jackman. The quilt, made according to "The Beggar" pattern, was begun by the Rockville woman in 1889 and completed this year by women of the Lena Methodist church.

City Rent Office Opening Monday

Lawrence County Problems To Be Answered There By Examiner

Rental problems of Lawrence county residents will be handled from the new Lawrence Savings & Trust building sub-area offices of Edward E. McConahy, rent examiner-in-charge, beginning Monday, November 16. Rooms 509-510 (fifth floor) have been taken over.

Rev. Fr. Charles Owen Rice, director of the OPA Pittsburgh defense-rental area, today formally announced its opening.

"The opening of this local office, one of the first three sub-area offices to be established in this district, will localize the rent control program by making its provisions and services more readily accessible to both tenant and landlord," Father Rice announced.

"The task of the rent division is to administer and interpret the federal price control act and the maximum rent regulations. Neither director nor examiners have the right to change or modify these regulations in any way; the provisions of the act must be carried out regardless of individual situations."

One of McConahy's first assignments will be the investigation of unregistered properties. These belated registrations are holding up the administration of the rent control program in the local area, the rent director said, and the situation must be corrected at once.

The setting up of this office is part of the plan to carry out a schedule designed to bring the administration of the rent control program into each local community. A representative will be present on regularly scheduled dates in Ellwood City.

American Forces Are Closing In On Japanese At Buna, By Hard Work

By PAT ROBINSON
(I. N. S. Staff Correspondent)

SOMEWHERE IN NEW GUINEA, Nov. 13.—American troops in the Buna area were closing in on the Japanese base, but behind their presence near the northern Papuan shore is a story of unglamorous, back-breaking spade work. That is meant literally.

Engineer corps, aided by hundreds of willing natives hewed out landing strips from the tenacious jungles so that supplies and contingents of green-clad fighting troops could be flown nearer the enemy base without the necessity of slow and tedious marches through the almost impassable jungles and precipitous mountain trails.

Gigantic Task

The preparation was a gigantic task which represented hundreds of hours of sweating toil with machetes and cane knives to cut away the thick growth. The broiling New Guinea sun was obscured frequently by heavy downpours of rain, but this was little relief, for then the jungles were turned into dank steaming morasses which dragged the workers down to their hips in its sticky, slimy embrace.

Sharp stiff jungle growth shredded clothing and scratched and tore the legs and arms of the men of the engineers corps and work divisions. Adding to the discomfort were New Guinea's myriad hordes of insects and other jungle creatures—land crabs of many varieties, swarms of mosquitoes which can bite through thick drill trousers, voracious brown ants measuring three-eighths of an inch in length, savage and persistent sandflies and leeches.

Water Is Scarce

Water is scarce in the jungles, so the natives do a brisk business gathering and selling green cocoanuts to the troops and workmen. Its cooling milk makes a delightful drink after the brackish and tepid water available.

Fortunately our troops are magnificently conditioned, and are standing up well under all hardships.

When the landing strips were completed the first transport planes arrived with troops, supplies and even jeeps, which will give you an idea. They have been roaring in regularly ever since, cutting days and weeks over the best transport schedules that could have been maintained over land routes.

When the final smash is made at Buna, you can be sure the Americans will take care of themselves. They have the stamina and the equipment, and have learned how to fight the Jap at his favorite jungle tactics.

As they close in on Buna they are eager for the fighting which they are confident will drive the enemy into the sea.

Making Plans To Honor Reese

John Egan Is Chairman Of B. & O. Committee In Charge Of Fete

Harry Reese, former New Castle man, who was recently promoted to the position of superintendent of motive power for the central region of the Baltimore and Ohio railroad, will be honored Wednesday night, Nov. 18, when a testimonial dinner will be held for him in The Castleton Hotel. SIXTEEN GET NAVY CROSS FOR HEROISM

(International News Service)

WASHINGTON, Nov. 13.—The Navy today awarded the Navy Cross to 16 naval aviation officers for "heroism and devotion to duty" in action against Japanese forces during the battle of Midway, June 4 to 6.

Of the 16 officers, 13 are listed by the Navy as missing in action.

Business Groups To Solicit Bond Sales

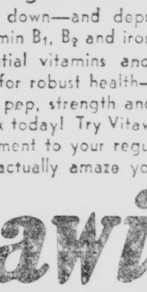

(International News Service)

WASHINGTON, Nov. 13.—Secretary of Treasury Morgenthau today announced that the Treasury will enlist heads of major automobile sales units, large advertising agencies, stock salesmen and the Office of War Information in a drive to sell an "unprecedented number" of government bonds on the open market next month.

Undertaken by the victory fund committee, the drive is part of a campaign to get the maximum part of U. S. war loans from the public, rather than the banks.

Blue is the symbol of fidelity, loyalty, sweetness, tenderness and spotless reputation.

Former French Air Commander To Aid Allies In North Africa

By KINGSBURY SMITH
(I. N. S. Staff Correspondent)

WASHINGTON, Nov. 13.—Gen. Robert Odic, former commander of the French air forces in north Africa and close friend of Gen. Henri Giraud, today announced he has placed his services at the disposal of the United States.

The general, who has been in Washington for some months, said he hopes to join the American forces in north Africa shortly.

Gen. Odic was in command of the French north African air forces until a year ago, when he resigned in protest against the Vichy government's dismissal of Gen. Maxim Weygand as proconsul of French north Africa.

Weygand was dismissed at the insistence of the Germans, who feared he was too inclined to listen to American diplomatic agents in north Africa talk about the eventual liberation of that territory. Gen. Weygand also opposed the granting of French African air and naval bases to the Axis.

Three Courses Open

In an exclusive interview, Gen. Odic predicted that the Mediterranean area will soon witness some of the greatest aerial battles of the war as Adolf Hitler strives to prevent the allies from gaining control of the historic sea that separates Africa from the European continent.

"There are three courses open to Hitler now," Gen. Odic said.

"One, he can go on the defensive in Europe and fortify the Mediterranean coast against the danger of an allied invasion.

"Two, he can move through Spain to Gibraltar and attempt to cross the Mediterranean into Spanish Morocco.

"Three, he can attempt to move an army across the central Mediterranean from Sicily to Tunisia; try to save the remnants of Field Marshal Erwin Rommel's forces, and maintain the Axis foothold on a most vital part of north Africa.

"Of these three possibilities, I consider the second the most dangerous from the allied point of view. It should not be too difficult for Hitler to move through Spain to the straits of Gibraltar and neutralize the British fortress there. He could then move an army across the Mediterranean to Spanish Morocco under an air umbrella."

While Gen. Odic was reluctant to state what the allies would do in such an event, it was evident that he felt American forces would have to move into Spanish Morocco the moment Hitler entered Spain.

"Whatever course Hitler decides upon, there is bound to be great aerial battles in the Mediterranean area," he said.

Gen. Odic also expressed the view that once the allies gain control of north Africa, it should be possible to bring about a complete collapse of Italian morale through aerial bombing of Italy.

Westminster Starts Pre-Induction Class

Course Emphasizing Mathematics And Military Drill For Those To Be Drafted Soon

(Special To The News)

NEW WILMINGTON, Pa., Nov. 13.—For the benefit of those men students who anticipate an early call to military service, Westminster college has set up a pre-induction training program with special emphasis on mathematics and military drill, according to an announcement by Dean Maxwell R. Kelso.

These two fields of training were chosen because of their fundamental importance in all branches of the armed services.

A class in elementary and first-year college mathematics was started this week under the direction of Dr. Harold L. Black, mathematics department head. Given at 4:30 p. m. so as not to interfere with regularly scheduled classes, the course is informal and is open to all Westminster men.

Practice in military drilling, which will include marching, regular formations, and military discipline, will get under way next week. Drills will be in charge of Robert F. Galbreath Jr., secretarial science instructor, who is a member of the Pennsylvania Home Guard.

In addition to this pre-induction training which is open to all men, Westminster requires that all men take a four-year body-conditioning program, including swimming, gym and hygiene courses, and work on the army-type obstacle course on the campus.

French Staffs May Be Interned At Hershey Hotel

(International News Service)

HERSHEY, Pa., Nov. 13.—Negotiations were understood to be underway today by the government to lease the palatial Hershey Hotel for the internment of members of the French diplomatic staffs and their families in this country.

Under the negotiations, which have not yet been completed, from 175 to 300 members of the French staff would be interned at the $1,000,000 hostelry.

The Vichy French government broke off relations with the United States following the Angelo-American invasion of French North Africa.

Upon the outbreak of war with Germany and Japan, German diplomats were interned at the exclusive Homestead Hotel at Hot Springs, Va., while the Japanese were quartered at White Sulphur Springs, Va. They remained there until they were exchanged for American diplomats abroad.

OFFICIAL COUNT

The work of the official board counting the election returns is proceeding and it is possible the count will be finished by Tuesday of next week. As usual some evidences of screw ball voting were found but not as many as usual.

A few minor errors have been checked but no evidence of corruption have been seen. In the South New Castle boro returns the board returned a complete vote for all four candidates for General Assembly. Votes were returned for W. Sharp Fullerton and James B. Kelso in the second district which was correct; but the votes returned for James C. Brice and Presley N. Jones for the first district were in error.

To Be Introduced To Own Brothers

(International News Service)

PHILADELPHIA, Nov. 13.—Arthur Bliss, 45-year-old Bell Telephone company linesman, today looked forward to introducing himself to two brothers he never knew he had.

During a search for Bliss' birth record it was discovered that he had two brothers living in Wellsboro, Tioga county. He immediately phoned one of them and arranged for a meeting Saturday. The parents are dead.

STOCKINGS

It is said the average woman wears out about 18 pairs of silk stockings a year. However, a Philadelphia stocking expert says: "No woman of intelligence should need more than six pairs of silk stockings a year."

Jap War Lords Increase Power

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, Nov. 13—Government far eastern experts today interpreted Japan's creation of a greater east Asia ministry, designed to administer conquered territories, as a step increasing the control and power of Nipponese war lords.

Analysts of the FCC's foreign broadcast intelligence service assert that the new action will be a complicating factor in drawing up the peace.

In latest reports on the far eastern situation, these experts described the formation of the new ministry as the most important single event in the history of Japanese government administration since the promulgation of the constitution in 1889.

Piecing together Japanese broadcasts, FCC analysts concluded that the GEA introduces into positions of power undistinguished bureaucrats who will be amenable to the demands of the military.

Formation of the GEA organization serves to streamline the Japanese government, reducing the importance of the administration of home affairs either by eliminating certain government departments entirely or by curtailing the scope of their activities, it was said.

The new ministry, FCC experts, obviously was formed to take over functions previously designated to other ministeries and represented a quasi-revolution in Japanese government.

Humbert Auxiliary Seventh Anniversary

King Humbert Auxiliary Enjoys Dinner-Program Honoring Anniversary

In observance of their seventh anniversary, as an organized society, members of the King Humbert Auxiliary gathered with their guests Thursday evening at a full course chicken dinner and program in the King Humbert hall, Division street.

The delicious dinner was served at 7 o'clock on nicely arranged tables, with two bouquets of flowers from the Casa Savoia Auxiliary and the Sons and Daughters of St. Margaret society, centerng the table, and also an anniversary cake.

After dinner speakers included: Mrs. Concetta Leonardo of Casa Savoia Auxiliary; Mrs. Florence Domenick of Sons and Daughters of St. Margaret's society; Mrs. Mary E. Conti, Mrs. Rachel Pascarella and Mrs. Rose Costa, the latter two, past-presidents of the organization. They were introduced by President Rose Marie Sica.

Mrs. Rose Costa gave the history of the club since its organization, and then introduced the mother of the organization, Mrs. Caroline Aiello. Lovely corsages were presented to the guests by Rose Marie Sica, and the latter received one from Mrs. Rose Presta.

Music was enjoyed and dancing, and a feature of the evening was the victory march, ending with a huge V. A special prize was won by Mrs. Eugene Barletti.

Those on the committee in charge were: Kitchen, Mrs. Mary Ross, Mrs. Elizabeth Melito, Mrs. Carmela Mialoccki, Mrs. Mary Offredo, Mrs. Mary Iccolana, Mrs. Caroline Aiello, Mrs. Raphael Lamberti, Mrs. Katherine Gillest, Mrs. Immacolato Sciulli, Mrs. Nellie Mazzei, Mrs. Eleanor Frasso, Mrs. Teresa Dambrosia, Mrs. Viola Pascarella, Rose Marie Sica and Vincent Rozzi.

December 6 is the date for the next meeting.

In spite of the fact that wild ostriches can run as fast as 50 miles or 60 miles an hour for short distances, ostrich hunters find little difficulty in corralling the birds because they invariably run in circles and can be overtaken by horses.

Funeral For Former Resident Saturday

Ford Brandon, Well Known Beaver Falls Man, Dies In Hospital

A former resident of this city, Ford Brandon, died Wednesday in Providence hospital, Beaver Falls. Mr. Brandon, who went to Beaver Falls from New Castle years ago, was a well-known business man in Beaver Falls, having been engaged in the mercantile business there for many years.

He was a member of the Masonic Order, the First Presbyterian church of Beaver Falls and the Board of Trade. He was also a member of the Last Man's club, formed by New Castle Masons, his death leaving but one member of the group living.

Mr. Brandon began his business career in New Castle, then operated the Boggs and Brandon Dry Good store in Beaver Falls. In later years, he operated the Brandon Tog shoppe there.

Surviving are his wife, Mrs. Helen Campney Brandon; one son, Ford Campney Brandon of Massillon, O.; a daughter, Helen Elizabeth Brandon, at home; a sister, Mrs. John A. Gailey of New Castle; one granddaughter, Janet Brandon of Massillon, and a niece, Miss Bess Gailey of this city.

Funeral services are to be held Saturday at 2:30 p. m. at the J. Orville Scott funeral home, Beaver Falls. Interment will be in Sylvania Hills Memorial Park.

Privates Are Officers But Only In Name

(International News Service)

BOCA RATON, Fla.—When is a colonel NOT a colonel . . . a major NOT a major . . . and a private a colonel and a major?

Two soldier-students at the A. A. F. Technical Training Command radio school at Boca Raton pose those twisters. They are Colonel Harry Adams and Major Leon Coleman, who, at birth were christened "Colonel" and "Major".

Pvt. Adams is the son of C. R. Adams, Marinette, Wis., and Pvt. Coleman is the son of John M. Coleman, Beaumont, Tex.

CHRISTMAS SEALS FOLDED BY LADIES OF LOCAL CHURCHES

With the shaping up of plans for the annual Christmas Seal Sale to stamp out tuberculosis, a national campaign which has always received splendid support of every community, various groups of ladies' organizations have been meeting in the local headquarters, room 219 in the Lawrence Savings and Trust building, to help fold and stamp letters to go out.

Wednesday, two local groups contributed their services, with much being accomplished. At two different periods, Mrs. R. H. Waite, Mrs. W. T. Jameson, Mrs. W. D. Ruby, Mrs. Stephen McBride, Mrs. George Pappas, Mrs. L. J. Waite, Mrs. R. L. Logan and Mrs. John Reynolds of the First Christian church gave their time. The second group composed of members of St. Mary's church, including Mrs. Paul Forcey, Mrs. Fred Flynn, Mrs. R. J. Nicholson, Mrs. Frank Gribben, Mrs. Ira Lazear and Mrs. M. P. McCann.

This year campaign is headed by Andrew Dodds, and Mrs. Helen Venderau is executive secretary, publicity is in charge of Charles E. Allen and Jean Glenn of The News.

The only Vice President of the United States to resign office was John C. Calhoun, in 1832, and soon after Mr. Calhoun took his seat in the Senate to which he had been elected by the legislature of South Carolina.

BIO-MINERAL FOR BETTER HEALTH!

WITH YOUR OWN EYES! SEE AND BELIEVE the relief you get from these ailments. By a NATURAL astonishing easy way. Without the use of harmful durgs. You may UPROOT and drive them OUT of your system. Regardless of how long you have been suffering. It takes ONLY 3 days to prove it. To SEE—NOT to guess the results.

DRUGLESS HEALTH—NATURE'S WAY . . . Cathartics DO NOT CURE constipation. Doctors can tell you that! BIO-MINERAL is NOT a cathartic. It works the NATURAL way. Watch your elimination from your bowels after taking BIO-MINERAL. In 2 or 3 days, the waste, black as coal and hard as rock, may break from the walls of the colon, and you will see it in the stool. It is almost unbelievable that such waste could be in your intestines, UNTIL YOU SEE IT!

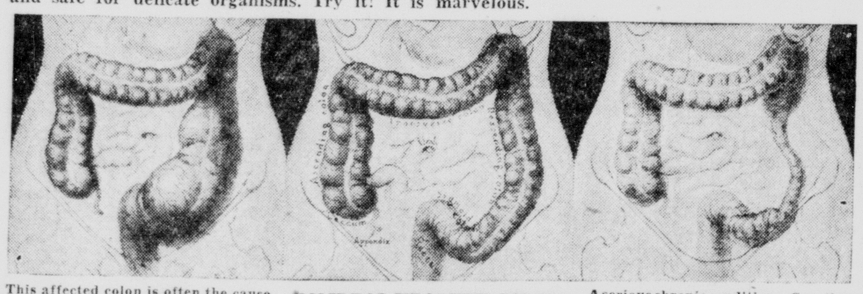

AFTER 3 DAYS examine your urine. You may see small pieces of white stone, threads and crystal-like matter, which should not be in your system—POISONS—coming out, relieving you! THESE poisons, collecting there probably for years, like rust in an old iron pipe, were weakening your kidneys and ruining your digestive system. Be sure to watch for these symptoms to realize the priceless value of BIO-MINERAL.

With Your Own Eyes! See and Believe!

PHARMACISTS—CHEMISTS do not make BIO-MINERAL. It comes from the depths of the earth, Nature's laboratory. Contains NO alcohol—NO drugs—NO dope—NO oil. NOT a SINGLE habit forming ingredient. ONLY Natural, Life-Giving MINERALS—the oldest and most reliable remedy for Rheumatism, Arthritis, Neuritis, Stomach and Kidney disorders.

FOR MANY CENTURIES, Medical science has believed in the curative properties of minerals. Now, as never before, Doctors, Hospitals, Sanatoriums, Naturalists and Specialists are stressing the importance of Minerals. The cry is: MINERALS!!! MINERALS!!! Sufferers go to mineral springs to get cure or relief. In BIO-MINERAL you get the very same Natural minerals of the famous springs in highly-concentrated form. As a logical thing, there should be a bottle of BIO-MINERAL in every home to take the place of physics, cathartics, oils and all harmful drugs.

BIO-MINERAL gets down to the root and works in your intestines . . . neutralizing, throwing away waste materials, gas, toxins and bloating. Not like physics, oils and cathartics do . . . but in a Natural, harmless and painless way—doing a real "house-cleaning." It is easy to take and safe for delicate organisms. Try it! It is marvelous.

This affected colon is often the cause of many ailments, leading to serious complications. It should be corrected. USE BIO-MINERAL

AN IDEAL HEALTHY COLON With BIO-MINERAL, you can keep the colon clean and healthy, eliminating the accumulated poisonous matter.

A serious chronic condition. Constipation, piles, colitis, appendicitis, other diseases may be developed. Beware! USE BIO-MINERAL

Auto Use Tax Stamp Supply Is Short Here

New Castle post office has been unable to fill almost 300 requests of district automobile owners for the government's required auto use tax stamps since November 1, Assistant Postmaster Ira A. Ringer diclosed today.

Gas rationing registrars are meanwhile asking, as law requires, the tax stamp numbers of all registrants, and scores in the city are at a loss to supply one. They just have no stamps and cannot get one—immediately.

Stamps Not in Sight

Today more motorists went to the post office window to find that stamps are not available. When they will be, in any appreciable quantity, officials cannot say.

In October 104 stamps were sold here and so far this month 52 have been sold. The office has 31 on order now—only 31 because the post office department is distributing them to offices in limited quantities.

"Many motorists," said one official, "tell us they have had their stamps stolen, and we don't doubt them. I know several who have myself. Then, of course, there are some who may never have purchased a stamp when they were first placed on sale."

Promise To Help Drivers

The official promised that every effort to obtain more stamps for sale—currently at the price of $3.34 per stamp—is being made.

Meanwhile, many motorists continue to make application for their important gas ration books without a use tax stamp number.

EDENBURG

W. S. C. S. MEETING

The Woman's Society of Christian Service of the Methodist church met at the home of Mrs. Ada Hoover Wednesday evening, with Mrs Charles Hoover associate hostess Mrs. Paul Roberts was in charge of the devotionals.

The president, Mrs. Ferd Book was in the chair. Mrs. Merlin Felger the treasurer gave a report of the finances up to date. Planes were made for a Thank Offering program in the church Sunday evening, November 29, at 8 o'clock with Mrs. Roy Raub chairlady. A Christmas box will be pcaked at the next meeting to be sent to the Ruth M. Smtih home by the society.

The program was presented by Mrs. Frank Usselton, with Mrs. Paul Roberts and Mrs. Ray Biddle assisting.

Delicious refreshments were served by the hostesses at the dining table.

For the December meeting the society will have a Christmas dinner in the church Wednesday, December 9, at which time there will be a gift exchange Mrs. Merlin Felger will be the program leader.

EDENBURG NOTES

William McKay of Sharpsville spent Monday at the home of Mr and Mrs. Ray McKay.

Mr. and Mrs. Alfred Easton of Pittsburgh, were visitors at the home of Mr. and Mrs. H. R. Schock and Mr. and Mrs. Ray Biddle.

Harold Gilmore of the Naval Mine Depot of Yorktown, Virginia, spent Sunday with his parents, Mr. and Mrs. Dale Gilmore, of the Edenburg Mt. Jackson road.

Canned salmon packed on the Pacific coast of North America amounted to 10,080,000 standard cases in 1941, according to a government statement. This represents an increase of 3,008,000 cases over 1940.

Thanksgiving Day At Home For Men Being Inducted

(International News Service)

HARRISBURG, Nov. 13. — In order to permit them to spend Thanksgiving Day at home, selectees who were due to be inducted into the army yesterday and on November 19 have been given an extra week of furlough, it was disclosed today.

Under orders from General Milton A. Reckord, commanding general of the Third Service Command at Baltimore, yesterday's inductees were given three weeks' furlough, instead of two, while those who were scheduled to be inducted on November 19 were given until December 3 to report to their induction center. Under a new order, which normally would have become effective November 16, inductees will henceforth be given one week instead of two weeks' furlough after being inducted.

Fingerprinting Of All Is Urged

(International News Service)

BOSTON, Nov. 13—Nation-wide fingerprinting for all in an attempt to thin the potter's field ranks, was advocated today by Mrs. Mary E. Hamilton, first policewoman in New York City and one of the organizers of the missing persons bureau in 1917.

She told the Business and Professional Women's club of Boston that annually in this country 60,000 persons are buried unidentified in a New York potter's field. Mrs. Hamilton said, 300,000 unknown dead have been buried in the past 25 years.

Flying Cadet Falls From Plane

Local Youth Involved In Unusual Incident At Oklahoma Air Base

To the list of flying cadets who have tried to fly without planes may now be added the name of Howard L. (better known to his friends as Hud) Smith, a local boy.

Two or three cadets in this country have been reported as having fallen out of planes—but they always landed on the plane tail. Hud was fortunate eonugh to have a parachute.

The incident in which the local youth was involved occurred last Monday at Cimarron Field, Okla. Smith was up with an instructor learning slow rolls when he fell out of the plane which was at an altitude of about 3,500 feet. When he finally landed, by means of a parachute, he was about 23 miles from camp. A car was then sent for him from the camp.

Smith was employed at the Joseph B. Leyde mortuary here for about five years before his enlistment in the air corps.

Navy Silent About Aroff's Dismissal

Lieutenant Commander, Court Martialed In August, Discharged From Service

(International News Service)

SAN FRANCISCO, Nov. 13.—Navy officials withheld comment Thursday on the dismissal from service of Lieut. Comdr. Maurice N. Aroff, former assistant in the office of naval officer procurement at San Francisco, headquarters of the 12th naval district.

His dismissal was announced by the Navy at Washington.

Aroff was court-martialed last August on charges ranging from "scandalous conduct" to "falsehood". One of the specific charges accused him of accepting a $950 automobile from Radio and Screen Star Tony Martin as a gift to expedite the latter's induction into the Navy as a chief specialist.

Aroff, former amateur boxing champ and Olympic games weight lifter, was also accused of accepting cuff links as gifts from two ensigns he aided in entering the Navy. The ensigns, Irving Cummings, Jr., son of the film director, and Lawrence Stromberg, son of a Hollywood jeweler, testified at the hearing.

Argentina Backs Move In Africa

Official Foreign Ministry Statement Is Made On U. S. Action

(International News Service)

BUENOS AIRES, Nov. 13.—Argentina is "solidly behind the United States" in its occupation of French North Africa and "views the operations with sympathy," an official foreign ministry statement disclosed today.

The government's position was announced late Thursday by Foreign Minister Enrique Ruiz Guinazu in reply to a notification by United States Ambassador Norman Armour as to the purposes behind the Allied campaign.

"The Argentine people watch with solidarity and interest the efforts made by the great and friendly nation in safeguarding the security of the Americas," Ruiz Guinazu's statement declared.

(Argentina and Chile are the only American nations which still retain diplomatic relations with the Axis powers. President Juan Antonio Rios has already cabled President Roosevelt expressing approval of the African campaign.)

General Reilly Date Is Changed

Army General Will Speak To Executives Club In December Instead Of This Month

Announcement was made today by Dr. E. F. Henderson, president of the New Castle Executives Club, that General Henry Reilly, who was scheduled to address the club at its next dinner meeting, Tuesday evening, November 24, will not come here until December 15.

In his place, the speaker will be C. William Duncan, of Washington, D. C., news commentator, an able speaker and observer of world events.

Pittsburgh To Test Pay Of Dependants Measure In Court

(International News Service)

PITTSBURGH, Nov. 13.—The city of Pittsburgh filed a taxpayer's suit in supreme court today to test constitutionality of the state dependency bill requiring municipalities to pay dependents of employes in armed services one-half of their normal salaries.

City Solicitor Anne X. Alpern said a petition also was filed asking the court to accept disposition without going through lower courts to expedite a decision.

Attorney Charles F. C. Arensburg was asked by Solicitor Alpern to intervene in behalf of the dependents. Miss Alpern said any dependent may employ private counsel to protect his interest.

Three Are Charged With Conspiracy In Draft Action

(International News Service)

PITTSBURGH, Nov. 13.—Three persons—a father, his son and the son's employer—were indicted by the federal grand jury Thursday on a charge of conspiracy to violate the draft act. It was the first such conspiracy indictment returned here.

The indictment named Willard Irwin Singer; his father, Martin H. Singer, and Walter William Weel, a coal dealer, all of Pittsburgh. The son was accused of making "untruthful statements" in his questionnaire regarding his father's dependency, and Weel was accused of having filed a false affidavit alleging that the youth would be difficult to replace as general manager of the mines.

Arabs Aid Lost American Pilots

Given Reward For Efforts—Pilots Carry Message From Roosevelt

By WES GALLAGHER
Correspondent with American Forces in Africa.

ALLIED HEADQUARTERS, NORTH AFRICA, Nov. 12.—American pilots are worth $5 in gold on the hoof to Arabs who lead them to headquarters after they have been forced down.

This is the price a finance officer put on two American pilots forced down near Oran.

The pilots on landing presented to the first Arabs they met a leaflet bearing the American flag and a message from President Roosevelt in Arabic.

This message read:

"To all Arab peoples: Greetings and may peace be upon you.

"The bearer of this letter is a United States soldier and a friend of all Arabs.

"Treat him well, guard him from harm and give him food and drink. Help him to return to the nearest American soldiers and you will be liberally rewarded.

"Peace and mercy. God be with you.

"Franklin Roosevelt."

The Arabs were delighted with the $5 gold pieces they received for each pilot returned to headquarters, although Arabs returning British pilots in the Middle East are given ($40) for each flier.

But the finance officer's conscience hurt him—so he gave each Arab an additional $5 gold piece for returning the American pilots' parachutes.

TRANSPLANT MUSEUM

(International News Service)

CHICAGO — Preparations were underway today to transplant the entire army aeronautical museum, whose collection traces the history of aviation, from Wright Field in Dayton, O., to Chicago's Museum of Science and Industry.

Planes ranging from the rickety trail blazers developed by the Wright brothers in 1903 to the deadly efficient war birds of the present will be shown.

Two Plane Crashes In Clearfield Area

(International News Service)

CLEARFIELD, Pa., Nov. 13—Two airplane crashes within two hours occurred late yesterday near Clearfield, but the pilots of both planes escaped serious injury, it was reported today.

The first crash occurred at 4:40 p. m. when an army plane, piloted by Lieut. H. W. Freemantle, stationed at Cross City, Fla., plunged to earth at Glen Richy, seven miles south of Clearfield. The pilot was not hurt.

Less than two hours later, a civilian training plane, piloted by Ensign Howard J. Duffy, stationed at the student pilot training center at Bloomsburg, Pa., cracked up on Penfield Mountain, five miles north of Clearfield.

Duffy reported that motor trouble necessitated a forced landing but that the plane turned over when the wheels struck soft ground. He escaped with slight face lacerations.

While a voluntary police unit of Clearfield citizens stood guard over the training ship, soldiers of the Middletown air depot, near Harrisburg, arrived to repair the army plane.

All the members of the ruminant or cud chewing family invariably rise from a reclining position hind part first; these include cattle, camels, sheep, goats, antelopes deer, and giraffes. Other large fourfooted animals, such as the horse rise on their front legs.

Charge Sabotage Cause Of Wreck At Baden, Penna.

(International News Service)

PHILADELPHIA, Nov. 13.—Testimony that sabotage caused the train wreck at Baden, Pa., on March 16, 1941, was introduced Thursday by the Pennsylvania railroad during the trial of an action for damages brought by a passenger for personal injuries and the death of her 9-months-old son.

The plaintiff, Mrs. Mary MacDonald, of Altoona, Pa., testified she suffered injuries which left "permanent nervous effects", and that her nine-months-old son, Donald, was hurled from her lap and killed.

Three railroad witnesses said they found evidence which convinced them that the rails had been tampered with by saboteurs. The witnesses were R. W. Compton, chief of police at Baden, Pa.; Philip Pastine, captain of police at the Curtis-Wright Corp. at Beaver and formerly a track repairman, and Steve Randos, former police chief at Freedom, Pa.

Earlier, a number of inspectors and mechanics testified at the common pleas court trial that inspection of the locomotive and cars immediately after the wreck showed no defects in equipment.

Treason Trial Defense Nears

Government Presentation Of Testimony In Chicago Nears Close

HAUPT CONFESSION PRESENTED TO JURY

By SAUL PETT
(I. N. S. Staff Correspondent)

CHICAGO, Nov. 13.—The United States government drew to a close today its treason case against six dazed German-Americans whose own words, it was claimed, have branded them the knowing accomplices of Herbert Haupt, since executed Nazi saboteur.

U. S. Attorney J. Albert Woll announced only a few odd threads remained to be knitted into his three-week-old case. Defense counsel Paul Warnholtz and Benedict J. Short were to begin their attempts today to undo the damage wrought against the accused by the government's evidence.

Confession Read

Probably the greatest wall that must be scaled by the defense attorneys is the "confession" of housepainter Hans Max Haupt, read to the jury in U. S. district court late yesterday.

The gray mouse-like father of the German spy told the whole tale of alleged treachery against his adopted country, it was said, to federal agents in the Winnetka, Ill., jail.

Before the dawn light crept into his cell that morning, Papa Haupt had implicated himself and the other defendants, his wife, Erna; Walter and Lucille Froehling, his brother-in-law and sister, and Otto and Kate Wergin.

He said that all six had "complete knowledge" of his son's sabotage mission and even then they lodged and protected him.

At the same time, through his father's statement, there evolved young Haupt's own story of the eight-man sabotage party landed on the east coast last June by submarines. The tale was highlighted by these assertions:

Some Features

1. An unnamed New York bank president, described as "working hand-in-hand with the German government," was to have changed the saboteur's fund of $170,000, mostly in $50 bills, to smaller denominations.

2. The German high command planned to send more submarine-borne saboteurs if the first eight arrived safely.

3. Andreas Grunau, superintendent of the Simpson Optical Co., which makes parts for the precious Norden bombsight, was told of Herbert's U-boat voyage, but still planned to give him his old job at the plant. Grunau, a previous witness at the trial, is in federal custody.

4. William Wenecke, Bund leader now facing draft violation charges, also knew of young Haupt's mission and was scheduled to put the saboteur in contact with a doctor and a priest who could "fix it so he wouldn't be called in the draft."

5. The submarine carrying the eight saboteurs sank two freighters in the Atlantic on the way over and was "shaken up" by depth bombs of a United Nations plane.

The elder Haupt's statement admitted virtually all the overt acts of treason charged by the government; namely:

All six defendants knew of Herbert's Nazi-supplied funds and the Haupts and the Froehlings hid it for him.

The Haupts bought their son a car on his return to Chicago to further his activities, and every other defendant assisted the 22-year-old enemy agency through advice, food, lodging and protection.

"Aunt Susie" To Be Repeated Tonight

Union High Senior Play's Second Performance To Be Given In Auditorium This Evening

"Aunt Susie Shoots the Works", presented last night to a well-filled house by Union High seniors, at the school auditorium was a smooth performance given with a professional air.

Those who missed it have the opportunity of seeing it tonight, when it is to be repeated. It is a play to take one's mind off one's troubles, as last night's audience showed, as they laughed, shivered and jumped, while watching it.

Aunt Susie was (and will be) played competently by Jeanne Ann Covert. Equally successful in their parts were the others of the cast, which include: Dorothy Paulini as Joy Herbert, Betty Baird as Scarlet, Edith Kirsch as Laura, Norma Rodgers as Madame Zola, Emma Jane Davis as Cynthia Dunning, Geraldine List as Portia Lark, Jack Pattison as Omar Graves, Joe Annarella as LaSalle, Guy Bailey as Johnny Rogers and Dahl Zedaker as Slick Conway.

AIR RAID WARDEN RECOVERING NICELY

Anthony C. Ricciardi, 1102 Agnew street, an air raid warden of the second precinct, fifth ward, collapsed due to illness Wednesday evening on Cunningham avenue while on his way downtown with his unit to join in the Armistice Day parade.

Mr. Ricciardi was taken to the home of Mr. and Mrs. J. C. Micco, Cunningham avenue, where he was given first aid by John Fuleno. He was later taken to his residence, where he is resting comfortably.

Cash Not Accepted For Saturday Show

Only Five Pounds Or More Of Scrap Will Get You Into The Morning Matinees

Cash isn't any good in the five motion picture theaters of the city at the scrap matinee to be held Saturday morning at 10:30. The only possible way you can get in is by bringing along five or more pounds of metal or rubber scrap.

All the theaters are co-operating in the scrap drive, and each of them will have a picture worth seing. The theaters are contributing the pictures, the employes are contributing the work, and the customers are contributing the scrap.

Five or more pounds of scrap is your ticket of admission at the matinee Saturday morning at 10:30. It's a chance to see a picture and help the scrap drive.

OWI Asks Double Feature Stopped

Gunpowder Could Be Made Instead; Informational Movies About War More Important

(International News Service)

NEW YORK, Nov. 13.—A plea for elimination of the double-feature from the nation's motion picture theatres came Thursday from Lowell Mellett, chief of the Bureau of Motion Pictures, office of War Information.

Declaring that "the physical substance which gives movie goers motion pictures could also give them smokeless powder and other articles" of war, Mellett told the National Board of Review of Motion Pictures the OWI would like to see the double feature eliminated for other reasons as well.

"There is only so much screen time in a day," he asserted. "We frankly want the small part of the total time that is required to deliver information. Double-features make it difficult to provide this time."

Mellett explained that his bureau is engaged in helping the motion picture industry give the American public "the feel of the war and their own relation to it." The bureau, he added, "is trying to help the American people see what war means to them."

Praising motion pictures for their "entertainment value," Mellett urged the industry "to keep carelessness and false conceptions out of all pictures that touch on the war" and to make "sincere and effective pictures for the direct purpose of aiding in the war effort."

Geneva Enrollment Higher This Year

Student Body Includes 11 From New Castle, 38 From Ellwood City; Defense Classes Large

(Special To The News)

BEAVER FALLS, Nov. 13.—The student body in the regular day school at Geneva college this year numbers 417 which is 15 or 20 more than at this date a year ago. These 417 are from 119 different places in 15 states, with one each from Cuba and the Island of Cyprus. Eleven of these are from New Castle, 38 from Ellwood City, 12 from Ambridge, 19 from Aliquippa, 18 from Beaver, 21 from Rochester, 27 from New Brighton, 106 from Beaver Falls, and a score or more from a total of a half dozen other places in the Beaver Valley. The seniors number 79, the juniors 53, the sophomores 109, and the freshmen 167, and 9 specials.

The enrollment in the engineering department is much larger than in any previous year. In addition to some 60 upperclassmen there are 48 freshmen registered in this department, one of whom is a woman, Miss Kathryn Cartwright, a sophomore from Ellwood City.

The enrollment in the defense classes this year, conducted in the evenings, is slightly upwards of 500.

In the extension school the enrollment totals something over 250.

AROUND CITY HALL

A record is being kept of every person who receives an OCD helmet. . . . Street buses are forced to detour south and north via Water street and Croton avenue. The bus company had no advance notice of the closing of the South Mill street bridge for repairs. . . . Whenever a detour is to be installed, an announcement should be made to the public.

Illness of Finance Director Albert Hoyland may temporarily delay some 1943 budget arrangements, because all reports are submitted by colleagues in Council to the finance director. . . . Although he has been able to get around and conduct his office, Mayor Charles B. Mayne has not been feeling too well recently.

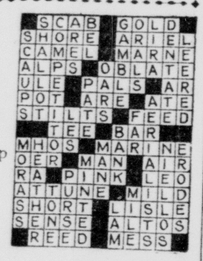

Although gas rationing is to become effective December 1, it apparently isn't worrying some of the speeders in Highland and other avenues. It is a shame the way some motorists are abusing the law. . . . Police Chief W. G. McMullen has given orders that the police garage doors are to be kept closed during cold weather, thus keeping police prisoners warm.

M. E. G. Girls Meet Thursday Evening

Will Pack Box Of Clothing For Southern Mission Center, Next Monday

Mrs. Clifford Comstock of Fairmont avenue was entertaining hostess to the M. E. G. Girls of the Mahoningtown Presbyterian church on Thursday evening.

The devotional period was led by Mrs. G. G. Herchler.

Mrs. F. W. Guy, advisor of the group, gave a talk on "Stewardship."

Mrs. James Miller gave a report on packing boxes for sons of the church in the U. S. Armed Forces, and read several letters of appreciation from the boys who have already received their boxes.

Mrs. Clara Allen gave a report concerning a box of clothing and Christmas items to be sent to a southern missionary center. She stated that the box would be packed next Monday afternoon in the church parlor.

The topic for study was of a foreign field, also of the home mission field.

The discussion on "Thailand" was given by Mrs. Arthur Brown, and "Southern Mountains" by Mrs. Manley Broaddus.

Mrs. Wade Daugherty gave the report of the Presbyterial held at Slippery Rock church.

Mrs. S. R. Fitzgerald was a special guest.

The hostess, assisted by the co-hostess, Mrs. Daugherty, and Miss Nancy Stitzinger, served a delicious lunch.

Gasoline Rationing At Mahoning School

By the number of automobiles surrounding the Mahoning school Thursday afternoon, it was evident something was going on. Yes, registering for gasoline rationing had begun in the roms of the school. There were about 14 persons present doing the registering, with Miss Nannie Mitcheltree in charge. A number of girls from classes 9A and 9B gave out numbers to folks entering for registration. The hours for registration Friday are from 3 to 9 p. m., Saturday, 9 a. m. to 4 p. m.

WOMEN'S SOCIETY MEETS THURSDAY

On Thursday evening, members of the Women's Missionary Society of the Madison Avenue Christian church, met at the home of Mrs. Walter W. Waid, of 813 West Clayton street.

Mrs. Sarah Clarke led the devotional period.

Mrs. Earl Ruehle presided at the business session. Plans were made for a special service, sponsored by the Women's Missionary Society, Women's Day, on second Sunday in December.

Mrs. Sarah Clarke had charge of the Bible study and discussion.

A delightful lunch was served by the hostess, assisted by Mrs. J. T. Clarke.

MAHONING SENTINELS COMMITTEE MEETING

Committees of the Mahoning Sentinels of the O. C. D. met Wednesday afternoon in the home of Mrs. Florence Mullen, Liberty street.

Financial report was given and approximately $155.00 was received at the recent spaghetti dinner sponsored by the Sentinels. The proceeds will be used to purchase equipment and for maintenance of the post.

A vote of thanks was extended to the cooks at the dinner: Mrs. Anna Masters, Mrs. Marion Lombardo, Mrs. Rose Zarilla, Mrs. Rose DeDario, Sandy Rainey, Mrs. Anna Perretta and Mrs. Mary Natale.

CHURCH SODALITY PLANNING PARTY

Thursday evening, members of the Sacred Heart Sodality of St. Lucy's church, met in the church auditorium, and plans were discussed for a party in December.

Mrs. T. C. Rainey, president, was in charge, and announced that the committee for the party will meet on Wednesday, November 18, in the church auditorium, at 1 o'clock. Entertainment will be planned.

The Rev. Fr. Sebastian Ippolito read the by-laws of the Sodality. On December 10, the next meeting, will be held.

MAN INJURES FOOT

Tony Martina, of 218 South Cedar street, employed as a carman's helper by the Pennsylvania Railroad at the local shops, suffered an abrasion and laceration of the left foot at his work late Thursday morning, when he dropped a bar on it. He was treated at the Jameson Memorial hospital.

SCHOOL OUT EARLY

Thursday afternoon, the children trouped happily along the streets about 2:30, as school was let out early, guess they felt they had a respite from their "arduous studies." They made way for the gas rationing board.

BACK FROM HUNT

Nick Perrotta, of North Liberty street, spent Thursday hunting in the vicinity of Emlenton. He brought down a ring neck pheasant and several rabbits. He said there was good hunting. There was about two inches of snow on the ground, a help for the tracking of rabbits.

S. C. W. CLASS MEETS WITH MRS. G. H. COOK

At the home of Mrs. George H. Cook, of 405 Newell avenue, members of the S. C. W. Class, met on Thursday evening. Mrs. Charles E. Dungan was co-hostess.

Miss Mayme Arthurholt led during the devotional period.

Mrs. W. C. Patterson was in charge of the business session.

Names of soldiers connected with the church, were drawn by the members, each to be responsible for sending a Christmas box to a soldier.

A quiz on the Bible was conducted by Mrs. W. H. Leicht.

Mrs. Maud Sheldon, of Ashtabula was a special guest.

A splendid lunch was served by the hostess and co-hostess.

The next meeting will be in the form of a Christmas party in the church parlors.

SOLDIER TRANSFERRED

Word has been received that Private Louis P. Dominick, son of Mr. anda Mrs. Frank Dominick of 205 South Liberty street, has been transferred from Keesler Field, Miss., to the Technical School Squadron headquarters, Miami Beach, Fla.

CLASS BUSY THURSDAY

In the basement of the Madison avenue Christian church, Thursday, the ladies of the Berean class were busy making mince meat. It certainly smelled good.

GOES FURTHER WEST

Mrs. T. C. Rainey of North Liberty street, has received word from her husband, Alderman T. C. Rainey, who is now in Phoenix, Ariz., due to his health, that he is leaving to go further west where the weather is slightly cooler, at the suggestion of the doctor. He is getting along as well as can be expected.

OPPORTUNITY CIRCLE MEETS AT WILKISON'S

Mrs. L. M. Wilkison of 501 West Clayton street was hostess to the Opportunity Circle, Mahoningtown Presbyterian church, recently at her home. Mrs. Maud Sheldon of Ashtabula, O., was a special guest.

A chicken dinner was served at noon. The committee in charge of the dinner was Mrs. William Leicht, Mrs. George H. Cook, Mrs. Grant Shaffer, Mrs. A. R. Mornes and Mrs. Mary Rhodes.

The afternoon program was in charge of Mrs. F. W. Guy and Mrs. E. C. Hulbert.

The next meeting will be the first week of December.

Seek New Street Lamp For Use In War Blackout

(International News Service)

SWAMPSCOTT, Mass.—Electrical engineers are conducting successful experiments with a new type street lamp to solve the blackout lighting problem.

The 'Blackout Luminaire," which sheds a brilliant downward light without contributing to sky-glow was described to delegates attending a war-time conference of lighting experts, sponsored by the General Electric Company.

An engineer compared the rays of the device as similar to the illumination given off by brilliant stars on a clear night.

The lamp, he said, emits just enough light to enable persons to detect moving or stationary objects; but is so carefully regulated that not one ray escapes skyward.

Private lighting engineers cooperated with the government in evolving the lamp, which they hope will be the answer to the challenge for a light that can aid traffic without being seen offshore.

Laura Hope Crews Taken By Death

(International News Service)

NEW YORK, Nov. 13.—Laura Hope Crews, veteran stage and screen actress died today in Le Roy Sanitarium, New York, where she was taken a month ago after being stricken seriously ill.

She was 62 and was remembered best to her movie audience as "Aunt Pity-Pat" in "Gone With the Wind."

Born in San Francisco, Miss Crews first appeared on the stage at the age of 4. She made her New York debut in 1901 and starred in such productions as "The Great Divide," "The Faith Healer" and "Mr. Pim Passes."

Shortage of ocean shipping and other wartime problems have focused attention of the Latin American Republics on the need for improved overland transportation, the Department of Commerce reports.

Men In War Industries May Face Draft Soon

By TONY ZECCA
(I. N. S. Staff Correspondent)

HARRISBURG, Nov. 13.—Pennsylvania's war industries will soon be called upon to furnish manpower "manning tables" and "replacement schedules" to aid local boards in drafting registrants without hampering production, it was disclosed today.

In a directive to local boards, Acting State Selective Service Director Col. Benjamin F. Evans informed them that "the increasing demands of the armed forces require that large numbers of men in essential activities who are liable for service be released for induction."

The "manning table", an inventory of the employer's manpower requirements, analyzes the relative importance of the various job classifications within the plant according to the period of time required to train a replacement.

Provides Basis

"This procedure," it was explained, "will provide the basis for a review of the use of manpower by the employer, his present and future manpower requirements, and the rate and order of replacement of men liable for military service."

By using the "manning table" as a basis, a replacement schedule will be prepared providing for the replacement of men in each job classification and the time within which the replacement can be accomplished to assist local boards in considering occupational deferments.

In requesting deferments for employes, the employer will henceforth fill in an affidavit telling when the registrants will be replaced. The form will be forwarded direct to the local board and will supersede requests for occupational deferment previously filed, it was asserted.

Replacement Program

It was pointed out that although it is up to the local boards to determine occupational deferments, they will give serious consideration to the replacement time which has been determined under an "accepted replacement schedule."

The "accepted replacement schedule" indicates that careful consideration has been given by the employer, state director and other governmental agencies to the employment requirements of the particular plant and the time required to replace the workers in each job classification.

"The purpose of the replacement schedule," it was explained, "is to maintain production and at the same time withdraw registrants for induction into military service."

The directive also stated that "it is not expected that all employers will use the manning table and replacement schedule," and local boards should therefore continue to consider affidavits for occupational classification submitted by employers who do not make use of an accepted replacement schedule.

Mother Starts Where She Left Off In Last War

(International News Service)

MOBILE, Ala. — Mrs. Edwin K. Townsend of Mobile is literally "taking up where she left off in World War I."

When the United States entered the first world war Mrs. Townsend watched her oldest son march away then went to work with the Red Cross.

To date in World War II she has watched her other son, a member of the merchant marine, leave on dangerous missions many times.

And again she has gone to work

Mrs. Townsend has organized three American War Mother Clubs, her latest the MacArthur Club, continues her work in the Red Cross spends a certain amount of time cheering up mothers who have sons in the armed forces and keeps her house filled with soldiers who she entertains and "has in for dinner."

"In wartime mothers should encourage their sons. If they are cheerful and write often, it will help their fighting boys," Mrs Townsend asserts. "They should also devote at least one-third of each day to doing war work."

Weather School At Grand Rapids

Army Air Training Center First To Be Devoted To Meteorological Instruction Only

(International News Service)

WASHINGTON, Nov. 13.—The War Department announced Thursday that an army air forces weather training center, the first school to be devoted exclusively to training in meteorology, will be opened in about 60 days in Grand Rapids, Mich.

The new training center will have a capacity of 5,000 students and will train men as weather observers, weather teletype maintenance men, weather forecasters, and aviation meteorologists.

In the past, arm aviation meteorologists have been trained at universities will continue, since the demand for weather specialists will not be met by the increased training facilities at the new school.

'Biscuit Gun' Is Spotlight In Air Slang

(International News Service)

RANDOLPH FIELD, Tex.—When an officer in a control tower at the West Point of the Air says "Please pass the biscuit," he doesn't mean one of those fluffy, golden morsels his mother used to bake. Instead, he is asking for the "biscuit gun," a hand-operated spotlight so named because of its shape.

Aviation cadets whose planes are on the ground during night flying are directed by the "biscuit's" white beam as they taxi to or from take-off position. The color of the light may be changed to green for "Go ahead," or to red for "Stop'. Directly pointed at a plane, the "biscuit" provides a directive that no person in the cockpit can miss.

The far-reaching rays of the "biscuit" also may be used for instructions to a plane whose radio is temporarily out.

TO MEN 18 AND 19 WHO WANT ACTION

RIGHT now the U. S. Army offers you many opportunities to serve your country. Certainly one of the most thrilling, most exciting branches of all for a red-blooded American is our modern, streamlined Infantry.

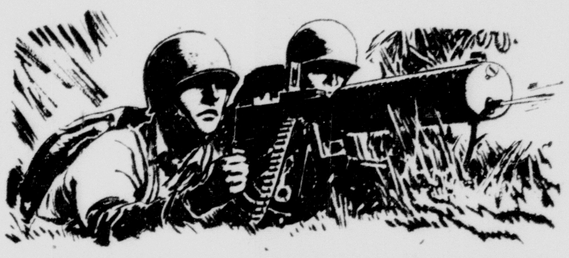

• For you can bet your boots that the Infantry will be there when the Nazi flag is torn down in Berlin. The Doughboys have always been in on the final victory since the dawn of history. And *you'll* certainly want to be there this time.

• Today's Infantry is a new, modernized combat unit. It includes more kinds of action than ever before. It gives you more kinds of adventure and training. Read about them carefully, for the Infantry is one of several branches of the Army which men of 18 and 19 may select today. Then talk to your nearest Recruiting Officer and get all the facts about the opportunities still open to you.

GANGWAY FOR THE INFANTRY

HEAVY MOBILE FIRE-POWER — No Infantryman in the world has more deadly, more powerful guns to use. The new 37 mm. jeep-towed field gun has terrific fire-power. Jeeps, including amphibians, also mount 30 and 50 calibre machine guns, making them one of the most versatile battle cars of all time.

MACHINE GUNNERS — Some of our Infantrymen command the barking muzzles of fast-firing, straight-shooting machine guns. Others are equipped with the newest, most modern long-range, rapid-fire weapons, automatic rifles, mortars, pistols, grenades, light and heavy anti-tank guns.

TANK BUSTERS—The Tank Destroyer Force of the Infantry is a new and powerful mechanized fighting unit. Its "tank busters" bristle with armor-piercing cannon and machine guns. They're regular 60-mile-an-hour fortresses on the move. The most effective weapons of their kind in modern warfare.

COMMUNICATIONS — In an army that moves like lightning, communications are vital. Infantrymen operate radio receivers and transmitters, "Walky-Talkie" one-man radio stations, telephone and telegraph equipment to guide movements of their own men and keep in touch with every other armed force in action.

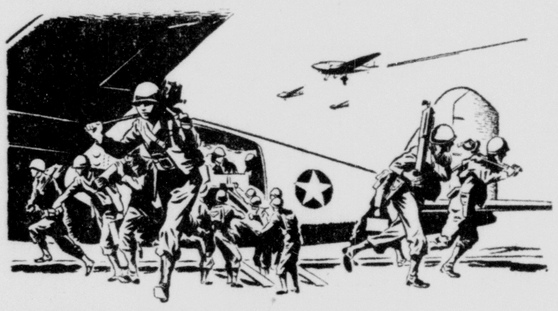

PARACHUTE TROOPS — Here they come, armed to the teeth. They float to earth by parachute from huge transport planes — daring men to do a vital job and do it well. They learn their business *from the ground up* and receive $50 a month in addition to their regular pay.

RIFLEMEN — No other Army on the globe equips its Infantrymen with a more efficient, more deadly hand weapon than the new Garand semi-automatic rifle. Superior in accuracy, in fire-power, in firing speed, this "one-man-gang-gun" gives our Doughboys the edge over any opponent.

MOTORIZED UNITS — In modern battle, Infantrymen roar up to the front lines in huge Army trucks. Complete divisions, with guns, cannon and ammunition speed over roads. As always, the American Doughboy is trained to take care of himself on foot and lick the enemy in hand-to-hand combat.

AIR-BORNE INFANTRY — Today's Infantry takes to the skies in more ways than one. Whole divisions of Air-borne Infantry, completely equipped with guns, cannon, ammunition and "jeeps," fly to battle in great transport planes, or soar swiftly and silently to earth in gliders to take the enemy by surprise.

MOUNTAIN TROOPS — The Infantry's Mountain Troops range high over lofty peaks, handling themselves as skilled mountaineers. Ski patrols, snowshoe patrols, pack units with mules and pack horses, and those who scale sheer mountainsides summer and winter, are part of the Infantry today.

AROUND THE WORLD — The U. S. Army has designed equipment and training for every known kind of climate and geography on earth. Our Infantryman is the best equipped in this war. For the snows of the Arctic or the heat of the Tropics, he has the clothes, equipment and training he needs to fight hard and win.

New Castle Woman Teaches Aviation

Mrs. Rebecca Johnston Gives Aviation Theory CAA Course At Westminster

(Special To The News)

NEW WILMINGTON, Nov. 13.—Teaching 20 husky Army and Navy flyers the fundamentals of aviation theory is the daily task of Mrs. Rebecca H. Johnston, of New Castle, who has been giving ground school instruction to fliers here at Westminster college since last July.

"You wouldn't be interested in ground school courses; you'd have to study," an instructor once told Mrs. Johnston.

"He made me so angry that I started the courses right away," Mrs. Johnston declares. "I studied, too."

The only aviation instructress in this district, Mrs. Johnston has been flying since 1936, but was never interested in ground instruction until 1939, when she took the courses and passed the six-hour CAA examination at the Bernard airport in Youngstown. She has been teaching ever since, and often hears from former students from all parts of the world.

"The other evening, four of them telephoned me from Georgia," she said. "And not long ago, I received a six-page letter from a flier in Africa. The censor had blacked out all except two lines."

Here at Westminster, Mrs. Johnston teaches flying rules and regulations, navigation, meteorology, general service and operation of airplanes, and aircraft identification to service pilot trainees during their eighteen week basic training course. In addition, she teaches a class in Youngstown on Sundays, and also classes at Slippery Rock.

"As for flying itself, I just picked it up," the capable instructress explains. "I used to go out to New Castle airport and go up with a friend of mine. The first plane I went up in was so tiny, you could pick it up by the tail and swing it around. One day after my friend thought I knew enough about it, he got out and told me to take it up before I even had a chance to work up an impressive scare."

All fliers have their narrow-escape stories. Mrs. Johnston tells about the time the fabric on the wing of the plane she was in ripped loose. Somehow it stayed on until the plane was landed, but she was "plenty worried" for a few minutes.

Large Balance In Compensation Fund

(International News Service)

HARRISBURG, Nov. 13.—The five-year-old unemployment compensation fund today showed a balance of more than $310,000,000 following the tabulation of third-quarter contributions from more than 150,000 employers in Pennsylvania.

The State Bureau of employment and unemployment compensation reported that collections since the fund was initiated in 1937 total more than $504,178,000 and interest on the money added another $14,279,000 for total receipts of $518,456,000.

Benefit payments, which began in January, 1938, have totaled more than $207,860,000 leaving a current balance of $310,656,000, the bureau said.

A survey of college students reveal that one-third of them listen to the radio while studying.

Post-Ladies May Deliver Christmas Mail This Year

(International News Service)

PHILADELPHIA, Pa.—This year's "season's greetings" may come to you via the post-lady.

Joseph F. Gallagher, postmaster of Philadelphia, asserts that "it looks as though we'll have to use women this year to deliver and sort Christmas mail."

Previously, Gallagher said, high school and college boys rushed the post office with applications for Christmas jobs, but this year they're rushing to recruiting stations.

Blame Hunters For Fire On Three Farms

(Special To The News)

GROVE CITY, Nov. 13.—Blaming careless hunters for a fire that spread over three farms, burning line fences, residents of the Blacktown district plan to post their land against all trespassing. Four years ago at this season considerable damage was caused by a similar fire.

The blaze started on the McCoy farm, and spread rapidly over the J. W. Govier and D. N. Gilson fields. The fire was controlled with difficulty as not many men were available, and at one time the fire-fighters were hard-pressed to prevent destruction of buildings.

Hints On Etiquette

A man should never jump into his car and allow his female companion to seat herself as best she may. A young lady says she can tell when people are married when the man does this. See that your lady is comfortably seated, then close the door on her side and run around the car to get in at your side.

WATCHMAN DROWNS

(International News Service)

PITTSBURGH, Nov. 13.—The body of Gilbert Sweeney, 55, night watchman for the Pittsburgh & Lake Erie railroad, was found Thursday in the Ohio river backchannel 1,000 yards below a railroad bridge.

Deputy coroners said they believed he fell while walking across the bridge, and apparently tried to save himself by grasping a floating wooden plank, around which his arms were wrapped.

A thermometer, with the degrees marked with raised figures and inscriptions in Braille characters, has been invented for the use of blind persons.

New Castle To End Season In Warren, Ohio

'Canes Jeopardize Clean Slate Tonight

Kickoff Whistle At 8; Lee, Zubkowsky, Burris, Gunn, Genkinger And Currie Sport Local Grid Colors For Last Time; Pa Newc Party Shoves Off At 5:30 P. M.; New Castle Seeks Ninth Conquest; Ohioans Have "Beef Trust"; Bridenbaughmen Determined To Avenge 1941 Stunning 13-0 Setback.

Resolved to wreak vengeance for last season's still-burning 13-0 setback, New Castle high's dauntless footballers reach the end of the 1942 cruise in Warren, O., tonight at 8, by combatting an always dangerous Harding high eleven.

N. C. won 5, lost 2, tied 2.

The unbeaten 'Canes, headed by their shrewd tutor, Phil H. Bridenbaugh, packed their kits and headed for the 34-mile safari this afternoon about 5:30 o'clock from the Y. M. C. A.

A half dozen athletes, among the most talented performers in the long football history of the local school, will execute their grid parts in the red and black colors for the last time.

They are:

Bob "General" Lee, John Zubkowsky, Harvey Burris, Jesse Gunn, and Dave Genkinger, seniors; and Russ Currie, who will be ineligible next season due to the 19-year ruling.

Squad Primed

New Castle concluded a rather strenuous series of workouts last night at Taggart stadium. With the exception of Currie, Zubkowsky and Razzano, the squad was proclaimed in top form by Coach Bridenbaugh following the session.

The coach plans standing pat, so far as his lineup, is concerned.

Zubkowsky and Burris are carded for wing duty; Mike Roussos and Tony Razzano will ramble from the tackle holes and Joe Joseph and Tom Sanfilippo are slated to fill the guard posts. Dave Genkinger winds up his career in the pivot station.

In the ball transporting quarters, Bob Lee will lead the attack from his left half slot. Currie will be opposite the colored star with Pete Tedesko and Jess Gunn completing the eleven at quarterback and fullback, respectively.

Because of their unbeaten record, the locals are rated as favorites.

Warren, sent back reeling on its heels five times, this semester, nevertheless ranks as major opposition. The Ohioans, following the pattern of the other nine enemies, are pointing for Pa Newc's sons.

Warren Chunky Team

The Harding flag bearers boast of one of the heaviest clubs in scholastic circles. The wall averages 194 pounds and the backs close to 180.

Because of the weight edge, the Ohioans naturally have put in an order for a soupy field which would hamper New Castle's deceptive attack and Lee's effective passing and running.

Faculty Manager Gardner today announced that the 'Canes will play before a big local cheering section. Despite the fact that tickets had not arrived yet, orders received up to Thursday had surpassed New Castle's allotment.

Warren officials expect one of the largest crowds of the season.

So far as New Castle's chances of winning the Class AA WPIAL title are concerned, tonight's outcome will have no bearing.

NO BOWL GAMES FOR NOTRE DAME

Long-Standing University Regulation Prohibits Participation

(International News Service)

SOUTH BEND, Ind., Nov. 13.—Notre Dame's football team will not participate in any "bowl" game the Rev. Father John Cavanaugh, C. S. C., university vice president and chairman of the faculty athletic board, announced today.

It had been reported Notre Dame would be invited to participate in New Orleans' Sugar Bowl contest, with either Georgia or Georgia Tech, which defeated the Irish, the probable opponent.

Any invitation to play in a post-season contest will be refused, Fr. Cavanaugh said, adding that a long-standing university regulation prohibits such participation.

Newton Is Elected Titan Grid Captain

Ellwood City Athlete Will Head Westminster During 1943 Season

NEW WILMINGTON, Pa., Nov. 13—Dick Newton, Ellwood City junior, has been elected captain of the Westminster Titan football team for next year. He succeeds Captain Ted Ossoff, Oil City senior, who graduates this year.

A backfield man, Newton is a veteran of three years on the Titan squad, and during the past two years, been one of Westminster chief ground-gainers.

As the Blue and White's punter, Newton has consistently out-distanced all opponents in kicking assignments during the past two seasons.

Difficulty In Getting Sufficient Floor Space Chief Reason

(International News Service)

IOWA CITY, Ia., Nov. 13 — The season's basketball schedule at the Iowa Navy Pre-flight school will be cancelled, it was announced today by the athletic director, Lieut. Col. Bernie Bierman.

The action was decided upon, Bierman said, chiefly because of the difficulty in getting sufficient space in addition to that required for other phases of the rigorous physical development program.

Pennsy Week-End Grid Card Heavy

Penn-Penn State Tilt Headliner; Nebraska Plays At Pitt

(International News Service)

Pennsylvania's football fans today looked forward with relish to 22 top-notch week-end clashes featured by Penn State's ambitious effort to upset its traditional rivals—Penn—in what should be the game of the year.

On the rebound from a stinging Navy defeat, George Munger's Quakers look like a good bet to conquer Bob Higgins' Lions in a bruising struggle. State, which upset strong Syracuse last week, has lost only to West Virginia so far.

Hank Scanlan's Holy Cross squad is expected to top Temple at the Owls' stadium in another well-matched game. The Owls, still bruised from the Boston college tilt, just can't seem to coordinate their potential might.

Pitt Is Selection

Pitt's downtrodden outfit, with the help of shifty Bill Dutton, ought to whip the Nebraska Cornhuskers in a close contest at Pittsburgh. The Panthers have lost to five mighty tough teams, while Nebraska has lost four in a much easier schedule.

Mississippi State should record its fifth straight victory at the expense of traveling Duquesne, whose tie with St. Mary's seems to indicate the Dukes haven't regained their early-season spark. And look for Bucknell to trounce Case tonight in an out-of-town engagement.

Other week-end choices: Susquehanna over winless Drexell at Philadelphia, Washington & Jefferson over Denison at Denison but not by much, Indiana Teachers to win a game at Shippensburg, Grove City over Clarion at Clarion, Lebanon Valley over Albright at Reading, Waynesburg over Geneva at Waynesburg, Johns Hopkins, a comer, over Swarthmore at Baltimore, Ithaca college over Slippery Rock at Ithaca, and P. M. C., a late season team to watch, over Juniata at Chester.

Fordham Releases 1943 Football Card

(International News Service)

NEW YORK, Nov. 13.—Jimmy Crowley's rooting interests in football are likely to be sharply divided for one game next season.

A nine-game 1943 schedule arranged by Fordham includes a concluding game with the North Carolina pre-flight eleven coached by Crowley while he is on leave of absence as Fordham's head coach.

Fordham's 1943 schedule:

Oct. 2, Tennessee here; Oct. 9, North Carolina at Chapel Hill; Oct. 16, Purdue here; Oct. 23, Texas Christian here; Oct. 30, St. Mary's here; Nov. 6, Louisiana State at Baton Rouge; Nov. 13, Holy Cross here; Nov. 25, Missouri at Columbia, and Dec. 4, North Carolina pre-flight here.

Holy Cross and Texas Christian replace Boston college and West Virginia on the schedule.

Florida Gee-Gee Season Gets O. K.

(International News Service)

NEW YORK, Nov. 13.—Florida racing for the entire season of 1942-43 has been assured by the state government and several horsemen today are busy arranging shipping schedules to get their racers on the grounds at Tropical Park and Hialeah.

H. L. Strauss, president of Tropical, revealed yesterday he had the personal assurance of Governor Holland of Florida that racing would be held uninterruptedly during the season.

Jack O'Brien, 64, Dies On Thursday

(International News Service)

NEW YORK, Nov. 13.—Joseph Francis Anthony Hagan, who won considerable fame as well as a boxing title under the name of Philadelphia Jack O'Brien, died at Polyclinic hospital Thursday at the age of 64.

Hagan, a resident of Ventnor, N. J., had been in the hospital, where he underwent an operation, for nine days.

Hagan crowned his ring career by winning the light heavyweight toga.

What Will This

WORSTED-TEX SUIT

Do For Me?

Well — it will do several things. It will dress you in fabrics that look and feel like imported woolens, tailored by one of the fine tailoring establishments of America — at a moderate price.

It will fit you perfectly and hold its shape and wear well.

And if you select a Worsted-tex Suit in the British Lounge* Model, it will make you look taller, fuller chested and slimmer at the hips.

National Loop To Help Phils In Some Way

Phillies Owe League About $100,000; No More Cash, Says Frick

(International News Service)

PHILADELPHIA, Nov. 13—Assurances from resident Ford C. Frick that the National League will do something to put the floundering Phils back on their feet today failed to stem the flood of rumors which have been current since the club's financial difficulties first became public Wednesday.

Declaring that the league will "absolutely not" put anymore money into the club, Frick added:

"We have not decided on any definite action yet; the board will decide that. Something must be done, but right now it is only a matter of consideration."

Although neither Frick nor Phils President Gerry Nugent would state definitely how much the Philadelphia teams owes the league, it is estimated at about $100,000.

Meanwhile, unconfirmed reports and rumors were circulating to the effect that Branch Rickey, new president of the Dodgers, might make a purchase offer, but Rickey, reached in New York, simply declared: "I am not at all interested in the proposition."

Jack Kelly, democratic city chairman, was said to have made a bid of $750,000 several months ago, but was turned down by Nugent who considered it "inadequate."

Another story was that Nugent would place ace pitchers Tommy Hughes and Frank Melton and left fielder Danny Litwhiler on the auction block for approximately $250,000.

FAIR OR FOUL

By LAWTON CARVER
INS Sports Editor

(International News Service)

NEW YORK, Nov. 13.—One of the best prize-fights from both an artistic standpoint and its potential importance in future lightweight division activity to be held here in recent months will bring Allie Stolz against Beau Jack tonight. The winner may next meet Henry Armstrong for no particular reason, but also will be in direct line for a crack at Sammy Angott's 135-pound title. While the winner probably will be Stolz, on class, Beau Jack, a Sepia ex-bootblack from Georgia, is gambling just about everything that it will be himself.

If they don't get upwards of $25,000 worth of customers into Madison Square Garden, Beau Jack is going to windup without a payday and possibly with a thrashing besides. By the heretofore duly publicized financial arrangements governing the encounter, Beau Jack is taking both his and Stolz ends of the percentage and guaranteeing the latter $10,000.

Taking A Gamble

He was willing to enter into this gamble for the chance to supplant Stolz as the leading contender for a fight with Angott, pending the champion's return to the ring some time after the first of the year. His period of grace between defenses expires next Monday, but bad hands have caused him to seek further respite from the rigors of his trade.

Getting away from all that, a surprising number of loiterers in the lee of the Cabanas along Jacobs' Beach lean toward Beau Jack to score an upset over the stylish young Jersey boxer.

These are the gents who always give an unorthodox, free-wheeling, pell-mell puncher a chance against opponents who do everything strictly according to the scrip. They point out that some of the greatest of fighters have ducked generally inferior opponents out of respect for a befuddling style.

That's why southpaws are cordially disliked and pointedly shunned by many fighters. Not that Beau Jack is a portsider. He just does things unexpectedly and sometimes furiously different—like a man throwing rocks with 10 arms. Beau Jack isn't quite that good ,but that's the idea. With whatever he boasts in fighting equipment he has won 11 fights this year, six of them by knockouts.

Mickey Cochrane's Mother, 72, Is Dead

(International News Service)

BOSTON, Nov. 13 — Mrs. John Cochrane, 72, mother of Navy Lieut. Gordon "Mickey" Cochrane, former manager of the Detroit Tigers, died Thursday. She recently underwent a delicate brain operation.

PITTSBURGH, Nov. 13 — An injury-riddled University of Pittsburgh football team engaged in only light practice today for its intersectional clash tomorrow with the favored Nebraska university Cornhuskers. Lou Chelko, fourth-string sophomore, was nominated to start at right halfback and Bobby Smith will replace the injured veteran Walter West at quarterback.

SOUTH BEND, Ind. — Notre Dame worked on new plays in preparation for the Michigan invasion. All members of the squad except the injured halfbacks, Russell Ashbaugh and Owen Evans, took part in yesterday's drill. The Irish fullback battery of Corwin Clatt, Jerry Cowhig and Jim Mello was in top-shape for Saturday's clash.

MADISON, Wis. — Wisconsin polished up its defense against the Northwestern attack and then worked on its own strategy for Saturday's encounter at Evanston. Coach Harry Stuhldreher appeared to be concerned over the left end position.

WESTERN OLD

This is the 64th season for the Western Conference in football.

PENNSY SHORTS

Odds and ends: More than 50 per cent of the boys at St. Vincent's college will enter the enlisted reserves during half-time in the St. Vincent-Scranton U. game, with officers from the army, navy and marine forces in attendance.

Temple university, whose footballers have garnered only 27 points to 95 for the opposition in seven games, will not be led to the slaughter house Saturday by Holy Cross, which has amassed 114 points to 87, despite the difference totals. The Templars have some hard-won victories to their credit and some close defeats while the Crusaders ran up most of their score against Ft. Totten's soldiers, 60-0, and dropped some contests that were in the bag before game time.

The Royal navy soccer team, representing the pick of the British fleet, was defeated 4-0 by the Philadelphia Nationals of the American pro league at Philadelphia.

HERE AND THERE IN SPORTS LAND

Temple, Georgia, Michigan State, Navy and Maryland are new opponents on Penn State's 1943 football schedule...Tex Mayhew, trainer for the Steelers, will referee the grappling bouts Friday night in Pittsburgh...Speaking of wrestlers, Attorney Sam Clark was quite a mat enthusiast in his college days.

Jimmy Bivins of Cleveland will make his first appearance in Madison Square Garden, New York, November 27, with Lee Savold as his foe. Remember when almost all the flyweights who appeared in the tournament in that garden, were regular performers in the Jolly bowl?

Frank Leahy carries a lucky dollar. He left it in South Bend when Notre Dame played Army in New York a year ago. He telegraphed for it but it arrived "too late" and the Cadets held the Irish to a tie which recalls that the late Jimmie Dime would wear only a certain sweater and cap when he handled his fistic brigade.

Jackie Fields, former welterweight champ, is boxing instructor at New Cumberland. He was a good fighter. Billy Conn, likewise, is an instructor there. All champs above the lightweight division are in service—Cochran, Zale, Lesnevich and Louis. Frankie Moran hopes to see boxing action at Camp Blanding, Fla.

Norm Ross, Butler, who deputies for the State Boxing commission in Butler and here, is a navy man. He was a grappler while in service. ...Amateur sports will be hard hit when the teen agers are called to service. Baseball here will be a chief sufferer next summer.

Jack McLean, 19, New Hockey Star

(International News Service)

Nineteen-year-old rookie Jack McLean was hailed as a new star today following his professional debut with the Toronto Maple Leafs by scoring one goal and assisting with two others, to beat the Boston Bruins 3 to 1.

Singularly, as last night's games marked the beginning of a career for one player, it signified the end—for the duration at least—of another. Red Goupille zoomed over his last professional ice as he scored the winning goal for the Canadiens, defeating the Chicago Black Hawks, 5 to 2.

The games left both teams tied for first place in the National Hockey league.

In the Toronto game, McLean teamed with Gaye Stewart and Bud Poile to form a swift attacking force for the Maple Leafs which caused no end of trouble for the Bruins. McLean scored the first goal in the second period and seconds later helped Stewart to get one in. The third score also was made by Stewart in the following period.

Goupille's goal, breaking a tie with the Black Hawks, was followed by scores turned in by Getliff and O'Connor.

Standing of the teams: Toronto and Canadiens tide at six; Detroit five points, followed by the Rangers, Chicago and the goose-egged Bruins.

Grovers-Clarion To Play Saturday

(Special To The News)

GROVE CITY, Nov. 13.—Still on the sidelines with a leg injury, Red Nugent, who represented 50 per cent of the Grover striking power in the early games, will sit out his third—and last—game when Clarion Teachers ring down the gridiron season here Saturday. The game will be the feature attraction of "Dad's Day."

Nugent wound up a brilliant football career at Meadville three weeks ago when the Grovers captured their only victory of the season. He was a regular as a freshman, as was Bob Hutchison, Butler tackle, whose leg injury is expected to be sufficiently recovered for him to play Saturday.

Three other seniors making their last appearance are Herb Hawkins, Pittsburgh tackle; Major Olmes, Oil City back, and Chris Zurn, Erie center.

Without Nugent, the Grovers face a stiff battle if they are to record their second victory against five defeats. Playing an abbreviated schedule, Clarion has won one game against two defeats. The Teachers have a 3-2 edge over the Grovers in the modern series starting in 1936.

No Market Variation In Indecisive Price Trends Of Recent Sessions

(International News Service)

NEW YORK, Nov. 13.—The stock market today showed no marked variation from the indecisive price trends of recent sessions.

Pivotal issues generally held small fractions to either side of last night's closing quotations. Trading was comparatively light.

Gold shares were active on the upside, Dome Mines advancing almost a point at one time to a new 1942 peak of 14⅛. Homestake and Alaska Juneau also were in demand.

Several issues climbed into new high ground, including American Water Works, Columbia Gas, American Can and Celanese.

U. S. Gypsum was independently weak, dropping 1¼ points to 58.

Fractional gains were registered by Chrysler, General Motor, Sears Roebuck, General Electric, Union Carbide, American Telephone, United Aircraft, Loew's, Continental Can, N. Y. Central and Standard Oil of N. J.

U. S. Steel, Anaconda, Kennecott, Westinghouse, Santa Fe, Western Union and Douglas Aircraft were among the stocks to incur modest losses.

Ellwood War Fund Drive Exceeds Goal By More Than $11,000

ELLWOOD CITY, Nov. 13—Friday, the thirteenth may be an unlucky day for some, but to members of the United War Fund Drive committee in Ellwood City it is just the reverse.

The committee announced at noon today, five hours before the close of the drive, that the sum of $29,142.98 has been subscribed. This is $11,000 more than the quota of $18,000 set for Ellwood City.

United War Fund officials immediately went into a huddle with the Mathews Conveyor company, United Tube company and Ellwood Products company along with others yet to report, in an effort to reach a record of $32,000 by Monday. That would be a record on the per capita basis for Ellwood City, and it is almost certain that the amount will be raised. Every group is asked to have their report in by Monday.

It was the greatest financial campaign ever held here in a ten-day period, and drive officials were jubilant that it went over on schedule. Dr. H. E. Helling, chairman of the drive, was as happy as a three-year-old on a merry-go-round with the results of the drive and praised labor and managements alike for their great co-operative spirit.

Contributions of the National Tube company and Aetna Standard Engineering company put the campaign across today.

The Aetna Standard Engineering company and employes gave a grand total of $2,723.50 which is a per capita of $4.45 per employe. The National Tube company and employees gave a total of $16,273.97, which is a $4 per capita per employee. As yet two hundred employees of the company have not been solicited because of absence, but will be contacted this week, adding additional funds to the drive.

Of the total amount of $29,142 subscribed at noon, $17,114 will be spread over a pay roll deduction of six months.

The amount of money received over the drive quota will be used to increase the allotment of the designated groups, and a part held over as a reserve for "lean" years.

Junior Woman's Club Welcomes New Associates

Final Plans For Annual Thanksgiving Dance On November 27 At Elks Club Made

ELLWOOD CITY, Nov. 13— A reception for new members featured the November meeting of the Junior Woman's club which took place last evening in the assembly room of the city building.

Various Meetings Of Church Groups

Many Sunday School Classes And Mission Societies Gather On Thursday

ELLWOOD CITY, Nov. 13. — Among the meetings held Thursday by church organizations were:

Willing Workers

Ten members of the Willing Workers class of the First Christian church assembled last night at the home of Mrs. Herman Patton, New Castle road.

Mrs. Patton led the devotions with business in charge of Mrs Delilah Campbell. Plans were made to send Christmas boxes to soldiers of the church.

Mrs. Clair Courson aided the hostess in serving a tasty lunch. The class will meet again in December at the home of Mrs. Earl Sarver, Forrest Hills.

Bell W. M. S.

Packing a box of new and used clothing for a mission station at Fayetteville, S. C., occupied members of the Women's Missionary society of the Bell Memorial church at the November meeting.

Mrs. Sue Sumner and Mrs. Harry Lash were hostesses and served a tempting tureen dinner to the 16 members attending. The mission topic was presented by Mrs. George Majors as leader. Thursday, December 10, the society will meet at the church.

District Two

District Two of the Young People's societies of the Baptist church gathered last night in the local First church with a very large attendance.

Featuring the evening was a most interesting address by Rev. John C. Smith, returned missionary from Japan, who described his experiences while being held by the Japanese after the beginning of the war.

Roy Sams, New Brighton, led the song service, and Edward Cable, president, was in charge. The hostess society served refreshments.

Lutheran W. M. S.

Twenty-nine members and one guest, Mrs. Campbell Daubenspeck, of the Women's Missionary society gathered last night at the Trinity Lutheran church.

Mrs. John Duffy was the leader and presented the topic. Mrs. H. F. Fleischer was in charge of business with a donation being voted to the church fund.

Hostesses, Mrs. George Blank and Mrs. S. C. Mullen, served delicious refreshments. December 10 a Christmas party will be held at the church.

Providence W. M. S.

Mrs. Fred Smith opened her home, New Brighton road, to members of the Women's Missionary society of the Providence Baptist church. Eighteen members and one guest, Mrs. J. B. Edgar, attended.

A lovely gift was presented to Mrs. Cyrus Main who is moving to Butler on Saturday for the winter months.

Members were invited to have their annual Christmas party on December 10 at the home of Mrs. C. N. Cramer, Country club road. The day was devoted to quilting with the hostess serving a refreshing luncheon.

Gas Registrations Underway At School

ELLWOOD CITY, Nov. 13.—With no special rushes reported, the first day of the gas rationing registration was held in the Ellwood High school auditorium. A goodly number was registered.

Registration will be taken until 9 o'clock tonight and on Saturday morning from 9 a. m. until noon.

Registrants are reminded that they may register anytime here and not according to alphabetical listings of last names.

ELLWOOD PERSONALS

Mrs. Oscar Bair, Ellwood City, has been discharged from the Beaver Valley General hospital where she recently underwent an operation.

Martin Kramer, Ellwood City, was among the navy enlistees in Pittsburgh on Thursday.

Pvt. Harry E. Deemer, son of Mr. and Mrs. William Deemer, Woodside avenue, has been transferred from Camp Barkley, Tex., to Camp Livingston, Alexandria, La.

CHAMPAIGN, Ill. — With Roy Hoppe, reserve quarterback, lost to the squad because of injuries, Illinois took a light workout today before leaving for Columbus to meet Ohio State. Right end Elmer Engel and left halfback Art Dufelmeier were back in uniform and were expected to be ready Saturday.

Protest Low Gas Rationing For Some Trucks

C. Of C. Contacts ODT On Some Of Allocations Made In Ellwood City

ELLWOOD CITY, Nov. 13—The Chamber of Commerce contacted the office of Defense Transportation today relative to the low gasoline rationing given to trucks in business here who are vital to the health needs of the community. In such category the Chamber placed the coal dealers and the milk dealers. One coal dealer who does an outstanding business here in supplying the needs of our people with coal received a 75 per cent cut in gasoline over last year. This means he will have a gallon and a half a day per truck to keep the cellar bins of some of our people filled with coal. A milk dealer who is already only delivering three days a week received his War Certificate which will allow him approximately 1¾ gallons of gasoline per day to cover his route.

R. J. Schill, executive secretary of the Chamber, who spoke to the office of Defense Transportation concerning the matter informed them that the coal and milk dealers could go out of business and get jobs in war plants for the duration but the homes of Ellwood City would suffer due to the needs of fuel and the staff of life, milk. He also informed the O. D. T. that milk sold only in the stores would break down the health of not only Ellwood City but the nation as well for without many store deliveries a great many housewives will not continually carry home enough milk to keep their growing children in ample needs.

The O. D. T. informed the Chamber that local truck owners could protest 30 days hence on their gasoline rationing by applying to the district office in the Mahoning Bank Building in Youngstown in person. The Chamber feels that trucks that are vital in keeping the health of this community's war workers in excellent condition should have the supply of gasoline needed to do so.

Thursday Night Social Affairs

Many Enjoyable Club Meetings Take Place At Various Homes In Community

ELLWOOD CITY, Nov. 13.—Among the many enjoyable activities of Thursday were:

Pythian Past Chiefs

Twenty-two members of the Pythian Past Chiefs lodge met at the home of Mrs. Samuel Harvey, Burnstown, with Mrs. Harvey Welsh, Mrs. Bert Williams, Mrs. Irvin Van Gorder and Mrs. Cyrus Price as co-hostess.

Five hundred awards went to Mrs. John Swick and Mrs. Ernest Rudge, and the bingo prizes to Mrs. Clyde Fetterman and Mrs. Melvin Klingensmith. The hostesses served appetizing refreshments.

Another meeting will be held on December 10 at the home of Mrs. Bert McKim and will be a Christmas party.

Castlewood Club

Castlewood club associates were pleasantly entertained last evening at the home of Mrs. Floyd Curry, New Bedford.

Five hundred was played at three tables after which the hostess served a tasty lunch.

In Remember, the club will meet at the home of Mrs. Thomas Montgomery, Castlewood.

500 Club

With Mrs. Joseph Book as a special guest, members of the 500 club were welcomed at the home of Mrs. Russell Book, Franklin avenue.

After several hours of cards, the attractive prizes went to Mrs. George Young, Mrs. Arthur McElwain and Mrs. Bert Strutt. Mrs. Book served a dainty lunch.

Members were invited to meet on Friday, November 27, at the home of Mrs. Joseph Book, Line avenue.

EVANSTON, Ill. — Northwestern's Wildcats were pronounced today in the best physical condition since the Ohio State game.

Otto Graham, who was able only to pass in the Illinois game, will be ready to do some running against Wisconsin Saturday.

NEW YORK—Earl Walsh today was readying ihs Fordham eleven for the squad's first real test against the "T" formation as the Rams meet the Boston Eagles Saturday. Tackling and punting are receiving attention on Rose Hill.

Christian Church Special Services

ELLWOOD CITY, Nov. 13.—The First Christian church will conduct evangelistic services during the week beginning Sunday, November 15, and closing Sunday, November 22.

The services will be held each evening, excepting Saturday, and will begin at 7:45 o'clock.

The pastor, Rev. Herman M. Patton, will preach the sermons. The members of the vested choir will present special music at each service. The choir will be under the direction of William Mattocks, the director of music, and will be accompanied by Viola Rape.

Ellwood Council Selects Board

Will Serve As Directors If And When Ellwood Water Company Is Purchased

ELLWOOD CITY, Nov. 13.—At a special closed meeting of the Ellwood council last night, a municipal authority was established and named. The municipal authority is a group of five men that will serve as a board of directors of the Ellwood Water company, should the contemplated plan to purchase the company be completed.

Those named were: Ray Aylesworth, five year term; C. W. Blank, four years; D. A. Evans, three years; Harry Wasser, two years, and J. W. Offutt, one year.

A report of the proposed purchase was made by Wilbur Johnson, investment banker. Statistics of the financial study of the company were favorable, Bankson of the Chester Engineering company reported. Council will continue negotiation of the purchase plan.

Humphrey and Humphrey were named solicitors; Chester Engineering company as construction engineers; Commonwealth Trust company of Pittsburgh as bond agency; Bergan Churchill of Pittsburgh, bond attorney, and Main & Co., auditors and accountants, by council to represent them in the contemplated purchase.

Further action concerning the planned purchase of the company will be announced. Absent from the meeting were Councilmen Boyd, Caplan and Lanzi.

Boro Manager Lowell Monroe is at State College today attending a finance officers' meeting.

School Board Meets Thursday

Superintendent To Make Plans To Have All School Children Finger Printed

ELLWOOD CITY, Nov. 13.—At the regular meeting of the Ellwood Board of Education last night at the Lincoln office, it was agreed to have the superintendent, J. Ellis Bell, make arrangements to have all the school children finger printed as a precaution in case of an air raid or other school mishap.

A military leaves of absence was granted Miss Mary Kuben, who has gone to Des Moines, Ia., to join the WAAC. She taught in the Ewing Park school. An increase of pay for substitute teachers in the grade schools, who teach for a period of two weeks or longer, was granted, making the daily rate five dollars, effective November 1.

A plan will be worked out whereby a Follette memorial football game will be held each year with the proceeds to be used for a broad scope of worthwhile projects for deserving children of the community. A total of $550 is now in the fund, received from the game held this year. The general committee was composed of Boyd Barrett, Nelson Runyan, J. Ellis Bell, J. J. McLaughlin and William Kegel.

The annual football banquet for the senior high squad will be held in the near future at the First U. P. church, with the date to be announced.

A summary of the delinquent tax report shows that approximately $100,000 had been collected in per capita and property tax during the years 1939 to early 1942. There still remains about $104,000 uncollected tax for the years prior to 1940.

Total football receipts for the season of 1942 amounted to $9,391, less $948 for federal tax. The total attendance was 23,914 at home games. Last year's total receipts were $5,689. Expenses were considerably larger this year because of increased taxes, costs of policing, equipment, cleaning, etc. A payment be made. A complete report of expenditures and receipts will be announced soon.

Reports of the audiometer tests for hearing were given, showing that several children needed hearing aids. Families of children have been asked to have them examined by a specialist.

VILANOVA, Pa.—Coach Clipper Smith and his Villanova Wildcats tonight entrain for Detroit, where they will meet the Titans in a Sunday thriller. Tommy Gildea, junior guard who has been credited with a major part in the 'Cats pass defense, has been sidelined by a leg injury and may not see action this week-end, Smith disclosed.
